| <p><b>14/26/NAC</b> - Tree roots opposite Co-op Green End Road causing trip hazard</p> | <p>Councillor Manning</p>          | <p><b>Update:</b> Additional tree has been added to the list for remedial work but the item is still on-going.<br/>           Further update: given the cost and the fact that there is now an EIP in that area, and a project I have got added to the Northern Area Corridor Transport Plan pot, it will be done as part of one of these. Officers have confirmed this won't affect either project (in terms of adding extra cost or stopping elements from being done).</p> <p><b>Update 15 December 2016 Cllr Manning</b><br/>           City Deal scheme may go forward in January 2017. Maybe resolved by March? restrict the duration of stay to say one hour to prevent long term parking and introduce some turn-over of vehicles utilising the parking bay.

This would involve an amendment to the traffic regulation order (TRO) and the installation of additional signage, so there would be a cost associated with this work which would need to be borne by a third party - that is residents or need to secure funding from alternative sources.

**Update 9<sup>th</sup> April Councillor Scutt**

Has discussed this with County Council Officers and options under consideration are including Pay and Display bays,

**Update 10<sup>th</sup> September Councillor Scutt**

County transport officers advised that it would not be possible to have dedicated parking bays for the library. Restricting parking to two hours in the area would require a Traffic Regulation Order and would include a wider area.

**Update 19<sup>th</sup> November Councillor Scutt**

Double yellow line work due to for early next year.

**Update 31<sup>st</sup> March Councillor Scutt**

Cllr Scutt stated that this issue was still on going, the Cambridge Joint Area committee was working on the issue of parking generally and she wanted a solution for the whole of Cambridge.

Double yellow lines are in the queue, two new officers have been appointed
