

## **Update following South Area Committee Monday 4 June**

We would like to apologise for the miscommunication prior to Monday's meeting of South Area Committee which meant that those attending did not receive the scheduled officer update on transport needs for the Biomedical Campus post-2020.

The committee has now resolved to hold a special meeting to discuss this topic before the next planned meeting of the South Area Committee on 10 September.

The Committee Manager will be contacting committee members, the Greater Cambridge Partnership (GCP) and Cambridgeshire County Council to find a suitable date, agree the content of the meeting, and confirm who will attend from GCP and the county council.

Thank you.
