**PLANNING APPLICATIONS**

CIRCULATION: First

Target Date: 13.08.2014

To Note:

Amendments To Text:

Paragraph 2.4 has been amended to read:

- 2.4 Both phases would be single storey and interconnected by flat roof linking sections. Phase 1 would also be connected to the existing flat roof single storey extension via a flat roof link. Both phases are proposed to be external timber clad with feather edge boarding, cedar shingle roof tiles and a low brick base surround. The pitched roof of Phase 1 would have a ridge running parallel to the playing pitch whereas Phase 2 would present a gable end to the pitch.

Paragraph 2.8 has been amended to read:

- 2.8 For background, planning permission was refused in 2007 for a similar single storey extension to the side of the existing grandstand. This was because the extension was considered to be unacceptable due to its poor design and bulky appearance. The extension was also considered to have a detrimental impact on the openness of the greenbelt.

Delete last sentence in paragraph 8.7:

- 8.7 The flat roof links between the existing and two proposed elements helps to break up the bulk and scale of the extensions, and the gable ending of the phase 2 extension gives architectural interest to the row of extensions and appears as a book-end. Phase 1 and 2 are proposed to have a slightly higher ridgeline than the existing single storey element but it would not be materially noticeable mainly because each element would read as a separate element linked by a flat roof section. ~~The phase 2 would extend beyond the footprint of the existing structures by 9.4 metres. However, this would be 400mm short of the footprint of the 2008 approved extension.~~
