

JOINT DEVELOPMENT CONTROL COMMITTEE (CAMBRIDGE FRINGES)

15TH JULY 2015

PRE-COMMITTEE AMENDMENT SHEET

PLANNING APPLICATIONS

Circulation:

Item: 4

Application Reference: S/0994/15/RM

Location: Trumpington Meadows Development Site

Target Date: 9 July 2015

To Note: Consultation response received from:

Anglian Water

Proposal is to discharge surface water flows, via an attenuation basin to the River Cam. Therefore Anglian Water has no comment to make. Adoption of the new surface water pipework will be dealt with at Section104 stage.

County Archaeology

We have no objection to the application and would not require further archaeological works in connection with the proposed development.

Mitigation of the archaeological impacts of the Trumpington Meadows development were secured by condition and subsequently agreed written scheme of investigation for the outline planning consent. The programme of archaeological investigation included the area of the proposed road and further fieldwork in this area is not required.

Representations Received: NA
