

Appendix A (i): Supplement to Report on Consultation

Proposed Modifications to the Cambridge and South Cambridgeshire Local Plans

In responding to issues raised at the Cambridge Development Plan Scrutiny Sub Committee, an amendment is proposed to proposed modifications PM/CC/3/A and PM/SC/3/A relating to the Land North of Cherry Hinton, to state that vehicular access to the site will only be permitted via the new spine road (unless required for emergency access). A further amendment is proposed to the supporting text (PM/CC/3/C and PM/SC/3/D), adding that the masterplan for Land North of Cherry Hinton will take into account the context of the surrounding area, including the allocation north of Coldham's Lane, R41.

The amendments proposed have been reflected in the Modification Schedules (Appendices B and C). The amendments to these four modifications result in consequential amendments needing to be made to the following paragraphs and assessment tables within Appendix A:

- Paragraph 2.8 – additional bullet point to be added in respect of each Local Plan to reflect the amended modifications;
- Paragraph 4.101 – 104 – additional paragraph to be inserted to reflect the amended modifications;
- Approach to Proposed Modifications below paragraph 4.104 – amendment to reflect amended modifications
- Within the Assessment Tables Appendix, changes will be made to the final row (Approach to Proposed Modification) within the assessment table for the four modifications PM/CC/3/A; PM/CC/3/C; PM/SC/3/A; and PM/SC/3/D, to reflect the amendments proposed in relation to vehicular access and masterplanning.
