Application No: 15/2063/FUL

Site Address: 268 Queen Edith's Way, Cambridge CB1 8NL

Description: Erection of 3.No four bed houses, internal access road,
car and cycle parking and hard and soft landscaping.

Applicant: Dudley Developments

Agent: Peter Mckeown

Address: 6-8 Hills Road Lead Petitioner: Resident of Queen
Edith's Way
Case Officer: Sav Patel

Text of Petition:

Although there is still an almost insurmountable opposition to any additional development at this location, it is possible that the local community may accept some development having a far less impact on the very special character of the area in general and the adjoining residences in particular. It is possible that this may have been communicated to the developer in times-past had the developer bothered to engage with us in any way, and at any time – which did not happen.

Let us be absolutely clear, however, that as a community we are still totally opposed to the current proposal as it stands – a compromise solution may be possible.

Road safety.

There is a major concern on this issue and the new access provision. Access requirements that meet the statutory provisions at the University Primary School are believed now to be a substantial risk to children accessing the school and we have similar concerns for the far higher numbers accessing Netherhall. The school itself is opposed to the application on safety grounds

Protection of the urban edge of the City.

We believe that we can suggest revised proposals that could minimise the impact on residents concerns in connection with the “green corridor”. This is very much needed as the developer has not provided sufficient details on this issue in the planning application, and continues to assert that the whole development will be almost invisible from without.

Loss of amenity.

We believe that we have a number of proposals that could substantially address the loss of amenity of the residents, and at the same time make far better use of the development site with the possibility of larger units
