Technical Briefing: Open to the Public

Cambridge East Cambridge Airport: Application 16/2212/FUL - Proposed Ground Run Enclosure

The context for this session is the current planning application for a Ground Run Enclosure for aircraft engine testing, at Cambridge Airport (planning application reference 16/2212/FUL).

The session will provide an introduction to the noise planning context at a national and local level, and also set out the role of the Environmental Health Officer/Noise Consultant in assessing noise impacts on amenity.

There will be an opportunity to experience an aircraft engine testing noise auralisation, which will take place in the Members Lounge.
