

Cambridge City Council Housing Advisory Board

Date: Monday, 2 February 2026

Time: 5.30 pm

Venue: Meadows Community Centre, 299 Arbury Rd, Cambridge CB4 2JL

Contact: democratic.services@cambridge.gov.uk, tel:01223 457000

Agenda

- | | | |
|---|---|------------------|
| 1 | Apologies | |
| 2 | Declarations of Interest | |
| 3 | Minutes | (Pages 3 - 6) |
| 4 | Housing Performance Report – Quarter 3 2025-26 | (Pages 7 - 26) |
| 5 | HRA Budget | (Pages 27 - 42) |
| 6 | Tenant and Leaseholder Involvement Strategy 2026-2028 | (Pages 43 - 62) |
| 7 | Housing Improvement Plan Update | (Pages 63 - 72) |
| 8 | Lift report for Housing Advisory Board | (Pages 73 - 82) |
| 9 | Forward Plan & Scrutiny Work Programmes | (Pages 83 - 106) |

Housing Advisory Board Members: Robertson (Co-Chair), Minns (Co-Chair), Bird, Gawthrope Wood, Griffin, Lokhmotova, Martinelli, Tong, Best and Powell-Hardy

Alternates: Bennett, Blackburn-Horgan and Dalzell

Emergency Evacuation Procedure

In the event of the fire alarm sounding all persons should vacate the building by way of the nearest escape route and proceed directly to the assembly point in front St Mary's Church. The duty Officer will assume overall control during any evacuation, however in the unlikely event the duty Officer is unavailable, this responsibility will be assumed by the Committee Chair.

Information for the public

The public may record (e.g. film, audio, tweet, blog) meetings which are open to the public.

For full information about committee meetings, committee reports, councillors and the democratic process:

- Website: <http://democracy.cambridge.gov.uk>
- Email: democratic.services@cambridge.gov.uk
- Phone: 01223 457000

This Meeting will be live streamed to the Council's YouTube page. You can watch proceedings on the livestream or attend the meeting in person.

Those wishing to address the meeting will be able to do so virtually via Microsoft Teams, or by attending to speak in person. You must contact Democratic Services democratic.services@cambridge.gov.uk by 12 noon two working days before the meeting.

The full text of any public question must be submitted in writing by noon two working days before the date of the meeting or it will not be accepted. All questions submitted by the deadline will be published on the meeting webpage before the meeting is held.

Further information on public speaking will be supplied once registration and the written question / statement has been received.

HOUSING ADVISORY BOARD

8 December 2025

5.30 - 7.40 pm

Present: Councillors Robertson (Co-Chair), Minns (Co-Chair), Bird (Virtually), Gawthrope Wood, Griffin, Tong, Best and Powell-Hardy

In attendance: Councillor Porrer

Officers:

Assistant Director for Housing and Health: Samanthy Shimmon

Assistant Director for Homes and Commercial: Sean Cleary

Resident Engagement Manager: Kate Grigg

Deputy Democratic Services Manager: Claire Tunnicliffe

Democratic Services Officer: Matthew Hussey

FOR THE INFORMATION OF THE COUNCIL

25/23/HAB Apologies

Apologies for absence were received from Councillors Lokhmotova, Martinelli and Harmony Birch (Tenant Representative).

25/24/HAB Declarations of Interest

There were no declarations of interest.

25/25/HAB Minutes

The minutes of the meeting held on 6 October 2025 were approved as a correct record and signed by the Chair.

25/26/HAB Public Questions

There were no public questions.

25/27/HAB Performance Report

The Assistant Director for Housing and Health, and Assistant Director for Homes and Commercial, presented the report in regard to the Housing Performance Report, Quarter 2 for 2025-26.

In response to questions, officers clarified that employing more staff to deal with rent arrears would not alleviate the issue if the rent arrears process could not be followed.

Members were pleased that the number of leaseholds in arrears had reduced but the report did not clarify how many it related to as that level of detail was not available.

In response to a question in relation to the recent protests by the Acorn Group on the use of bailiffs by the Council, the Board were informed that bailiffs would only be used for the collection of Council Tax. However, as a landlord, the Council would use debt collection agencies purely for tracing purposes such as refunds. It was also confirmed that the protest was in respect of debt and not possession.

In reply to a question on the length of payment plans, this assessed case by case and was usually around 18 months, although some plans had lasted 5 years.

In response to a query to what other Local Authorities Cambridge City Council was benchmarked against, Members were informed that this information would be included in the Annual Report.

In regard to the forecasted poor position for Q4, this was due to void loss and was not a position the authority wanted to be. Work was being undertaken, including regeneration proposals. Properties that were due to be demolished would show as void and needed to be set at zero rent. It was noted that the 'Void Improvement Project' would review the void process and how it impacted upon KPI's.

Members were informed that voids would be assessed and if cost-effective would be used for temporary accommodation. Properties such as the flats on Ekin Road had lots of damp issues and would not be cost effective to bring back into use. Such properties would be knocked down and classified as a surplus asset.

The Housing Advisory Board supported the budget bid to give more resilience to Housing as currently staff were overworked.

In regard to complaints, it was noted from the Tenant Satisfaction Survey, that many residents would class a repair as a complaint. Also, in respect

of Anti-Social Behavior, if reported and not dealt with straight away, people would then make a complaint.

Members proposed that a Task & Finish Group be established to look at areas around newbuilds and snagging etc.

Resolved: (i) To note the report.

(ii) That the Assistant Director for Housing and Health, and the Assistant Director for Homes and Commercial be requested to look at the feasibility of establishing a Task & Finish Group to look at areas around newbuilds and snagging etc.

25/28/HAB Regulation Inspection Grading

The Assistant Director for Housing and Health, presented the report, which provided an update on the Regulation Inspection Grading.

Members thanked everyone involved and that the Board needed to their achievements to be passed onto residents.

In response to questions, officers clarified that the good news story was unfortunately not picked up in the local press, although they had been made aware.

Members were notified that a Stock Condition Survey was due to be launched, and that officers would ensure that the Councils specifications were fit for purpose. It was added that a Stake Holder Engagement event with a number of suppliers had been held, with approximately 30 to 40 companies in attendance. It was hoped that this would go live in April 2026.

Resolved: To note the report.

25/29/HAB Rent Regulation

The Assistant Director for Housing and Health, submitted a report on the Rent Regulation Project.

Members were informed that all current tenants had been sent regular updates letters regarding the progress of the project. Further, tenants who had emailed, former and current, had been sent a digital copy of the most recent updates. In the November letter, tenants were advised that they had

been split into four groups: Group 1 Tenants who do not receive any form of housing related benefit; Group 2 Tenants who receive Housing Benefit only; Group 3 Tenants who receive both Housing Benefit and Universal Credit; and, Group 4 Tenants who receive Universal Credit only.

In response to questions in relation to former tenants being leaseholders under the Right to Buy scheme, Members were informed that current tenants would be prioritized.

In relation to tenants who had passed away, any money owing could be claimed by the estate and that claims forms were available on the website. Any claims would need to be evidenced.

Resolved: To note the report.

25/30/HAB Housing Improvement Plan

The Assistant Director for Housing and Health, presented the item on the Housing Improvement Plan.

In response to questions, officers clarified if asbestos is found in a property and deemed to be good condition, it would be left in situ. It was added that trained operatives were employed who understood the risks.

Members commented that the plan needed to be insync with key decisions and that it would be useful if the Forward Plan and the work programs from both the Performance, Assets and Strategy and the Services, and the Climate and Communities Overview and Scrutiny Committees be included in future agendas going forward.

Resolved: (i) To note the report.

(ii) That the Forward Plan and the work programs from both the Performance, Assets and Strategy and the Services, and the Climate and Communities Overview and Scrutiny Committees be included in future agendas going forward.

The meeting ended at 7.40 pm

CHAIR

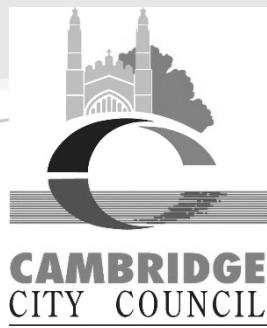

Cambridge City Council

Housing Advisory Board Paper

1. Housing Performance Report – Quarter 3 2025-26

Responsible Officer	Samantha Shimmon / Sean Cleary Author: Catherine Buckle
Contact Details	Tel: 01223 457261 Email: catherine.buckle@cambridge.gov.uk
Purpose of Paper	To provide a quarterly report of performance in housing, relating to operational efficiency, health & safety and tenant satisfaction.
Brief Summary	The Housing Service keeps an oversight of several operational, management and stress indicators, incorporating benchmarking data where relevant and indicators reported to the Regulator of Social Housing.
Is the paper going to Cabinet or either Scrutiny Committee's?	N/A

This page is intentionally left blank

HOUSING PERFORMANCE REPORT

2025-26 as at Qtr. 3

Damp, Condensation & Mould Cases update – Dec 2025.....	11
Disrepair Claims Progress.....	13
The Tenant's Voice	14
Engagement with tenants.....	16

Introduction

This report gives an update on how Cambridge's Housing Service is performing, as of December 2025. We check progress every three months at Housing Leadership Board to make sure homes are safe, services are running smoothly, and residents are getting the support they need.

In December, the Council introduced a new tool called the **Performance Management Framework (PMF)**. Considered a 'big-picture dashboard', the PMF helps the council:

- Connect the long-term vision to what happens day-to-day
- Keep improving services
- Be open and accountable
- Make decisions based on facts, not guesswork

The PMF gives councillors a high-level view at Cabinet, but this report dives deeper. It shows the details behind the numbers so the Housing Advisory Board can see what's working well and where we need to improve.

We look at three main areas:

- **Efficiency** – how well we manage things like rent collection and repairs
- **Safety** – making sure homes meet all legal standards
- **Resident feedback** – what tenants are telling us about their experience

Cambridge also compares its performance with similar councils through Housemark; a national benchmarking group. This helps us set realistic targets and learn from others who are doing better or saving money.

Our targets are based on past performance, comparisons with other councils, and the resources we need to keep improving.

Operational efficiencies

Ref	Description	Target 25/26	Quarter 1 2025-26	Quarter 2 2025-26	Quarter 3 2025-26	Current benchmark Quartile
I1	Rent collected from current and former tenants, as a % of the annual rent due (excluding arrears bought forward)	100.00%	104.76%	101.69%	100.46%	Q1
I2	Current tenant arrears as a % of the annual rent due	3.50%	3.64%	3.82%	4.19%	Q3
I3	Former tenant arrears as a % of the annual rent due	2.00%	2.99%	3.34%	3.66%	Q4
I4	Void loss as a % of rent due	N/A	4.16%	4.21%	2.93%	Q4
I5	Leasehold service charge arrears (no payment plan in place)	<£50,000	£62,071	£48,581	£160,559	NA
HH1	Tenancy audits completed (% of overall stock)	10%	1.62%	2.2%	2.3%	NA

Manager's commentary:

I2 & I3 - Due to the current rent regulation work, enforcement action has been reduced whilst we focus on the rent error issues. Whilst they continue to try and engage with tenants who are in arrears, these KPIs are predicted to continue rising until the team can continue with enforcement work.

I4 – Shows the total rent and service charges lost due to voids - as at end of qtr. 3, this amounts to £1.25 million. Included in this figure are properties set aside for redevelopment, any bulk handover of new build properties that were waiting to be let and those undergoing energy efficiency works.

I5 – Most service charges are paid under an agreed payment plan, but we currently have £39k of arrears where the case is with the legal team and £19.5k where the leaseholder is deceased or the properties are being bought back for redevelopment and £92k with no payment agreement in place -Anna, thought on this?

HH1 – Due to a significant rise in the workload coming into the Tenancy Management team, most of which is of an increasingly complex nature, as well as unforeseen resource shortages; the number of properties receiving tenancy audits has significantly reduced. It is likely this will continue for the foreseeable future, and we will not be able to meet the 10% target this year. Discussions are on-going regarding a long-term solution for this. To date however, the

team have provided 137 households with advice and support during and following a tenancy audit.

Ref	Description	Target 25/26	Quarter 1 2025-26	Quarter 2 2025-26	Quarter 3 2025-26	Current benchmark Quartile
V1	Average re-let time in days (key-to-key)	35	43.4	46.9	47.5	Q1
V2	Average time in days to repair a void	20	33.4	31.6	30.6	Q2

Manager's commentary:

V1 – This PI incorporates both the repair time and letting time of a void. Repairing the void is covered below. Housing a general needs tenant took on average of 16 days once the keys were returned from the void repair team.

The average sheltered void time in Q3 was 53 days (key to key), an increase from 40 days in Q2. This increase was as a result of both longer repair and longer lettings times. Lettings times were higher in December compared to the rest of the quarter and this is likely to be down to delays over the Christmas period. In addition to improvements reported last quarter, we have made further improvements to processes between our Independent Living Service and our lettings team and are now exploring the possibility of advertising sheltered properties within the notice period where appropriate to further reduce the overall void time.

V2 – The system reported construction phase void turnaround time sits around 15 days on average; this system driven approach needs reviewing as it doesn't reflect the 30.6 days reported in the Q3 report.

Ref	Description	Target 25/26	Quarter 1 2025-26	Quarter 2 2025-26	Quarter 3 2025-26	Current benchmark Quartile
R1	Appointments kept as a % of appointments made	90%	95.7%	95.9%	95.7%	Q2
R2	Percentage of repairs completed at first visit	85%	83.1%	80.9%	86.9%	Q2

Manager's commentary:

R1 - Work is ongoing with the Work Planning team and the Repair Team Leaders to understand the 4.3% in the appointments kept gap and the improvements required to move towards 100%.

R2 - The Repair Team leaders are attending regularly meetings with the CSC team and the Work Planning team; the meetings allow the teams to establish the reasoning behind the repairs that

cannot be completed on a first-time fix basis. These meetings have assisted with increasing the Q3% output reported.

Health & Safety in council homes

Reporting and publishing data on our performance against the building safety Tenant Satisfaction Measures (management data) is a mandatory requirement under the new Social Housing (Regulation) Act 2023. Where the data relates to properties within a block, each flat still in council ownership must be counted. This also includes those units managed by a third party, as the council as the landowner retains overall responsibility for health & safety.

At the present time, EICR reporting is NOT included in the TSM's, however, for consistency, the service is calculating the results based on the TSM methodology.

Awaab's Law, which came into force on 31st October 2025, sets strict timescales for social landlords to investigate and address damp, condensation and mould (DCM) hazards in their properties.

Compliance as at 31/12/2025

The number of affected units change quarterly as properties are sold/demolished/added to stock.

The data includes properties run under the Management Companies.

TSM Ref/Ref	Description	Affected units (denominator)	*Number compliant (numerator)	% compliant (Qtr. 3)
BS01	% of homes for which all required gas safety checks have been carried out.	6905	6897	99.9%
BS02	% of homes for which all required fire risk assessments have been carried out.	4092	**3606	88.1%
BS03	% of homes for which all required asbestos management surveys or re-inspections have been carried out	2961	2961	100.0%
BS04	% of homes for which all required legionella risk assessments have been carried out	1008	994	98.6%
BS05	% of homes for which all required communal passenger lift safety checks have been carried out	1359	1359	100.0%
C2	% of domestic properties with a satisfactory Electrical Installation Condition Report (EICR) up to five years old	7680	7414	96.5%

*The numerator; those units for which the Authority holds an in-date safety certificate.

** included in this statistic are some blocks that require a check whether a FRA is required; the denominator will change depending on the outcomes.

Manager's commentary:

FRA's: 2 building surveyors have been appointed to identify those blocks that require a check on whether communal space is present. A new app 'Safetyculture', has been utilised to capture this, plus a range of other block details, to support the ongoing maintenance of our blocks and to inform our Asset Management system.

As part of the above monitoring, the number of outstanding actions found during the assessments carried out are included below.

General Needs properties

	All Electric Properties (no gas)	N/A	717	N/A	

Commentary:

The Compliance Team have been working with the Asset Management team recently to gain assurance that everything was being monitored and reported on. Having worked alongside Asset Management, the Compliance Team now must own the data and compliance with the legislation. A new report will be run in April 2026 to check for progress on data storage and servicing records.

Health and Safety indicators relating to Awaab's Law:

A damp and mould live case is where damp and/or mould has been recorded in line with policy and investigations into or actions to tackle the cause of damp and/or mould are ongoing and yet to be resolved.

A housing disrepair claim is a legal claim brought by a tenant or on a tenant's behalf in respect of poor housing conditions at a home where the council is responsible for maintenance.

Damp, Condensation & Mould Cases update – Dec 2025

This report tracks the progress of **Damp, Condensation, and Mould (DCM)** cases and **Disrepair Claims**, with a strong focus on managing rising volumes, improving case handling, and enhancing collaboration across teams. Key efforts include weekly contractor meetings, and process improvements supported by data tools.

*2023, 2024 and 2025 DCM cases received

Live DCM Cases:

November shows a significant increase in live DCM cases. This is due to seasonal factors, additional reports from internal teams and contractors, and ongoing work during the contractor transition phase.

Winter Ready Campaign:

The social media advert for the *Winter Ready* campaign will be launched this week and has already been shared with the Board. The campaign focuses on breaking down barriers such as shame, fear of consequences, lack of trust, and mental health challenges.

encouraging tenants and leaseholder to report issues early and seek support without hesitation.

Cambridge Matter Article Finalised

The latest edition of *Cambridge Matter* has been finalised. This issue aims to proactively address seasonal challenges related to damp and mould by providing practical advice and guidance for residents during the colder months.

Disrepair Claims Progress

Current Claims Breakdown (as of December 2025)

Year	Total Live Claims	In Progress	Works being completed	Post-completion inspections
2022/23	1	0	1	0
2023/24	4	0	2	2
2024/25	4	1	3	0
2025/26	19	13	6	0
Total	28	14	12	2

Total live claims from 35 (Oct) to 28 (Nov) — drop due to backlog clearance on post completion inspections

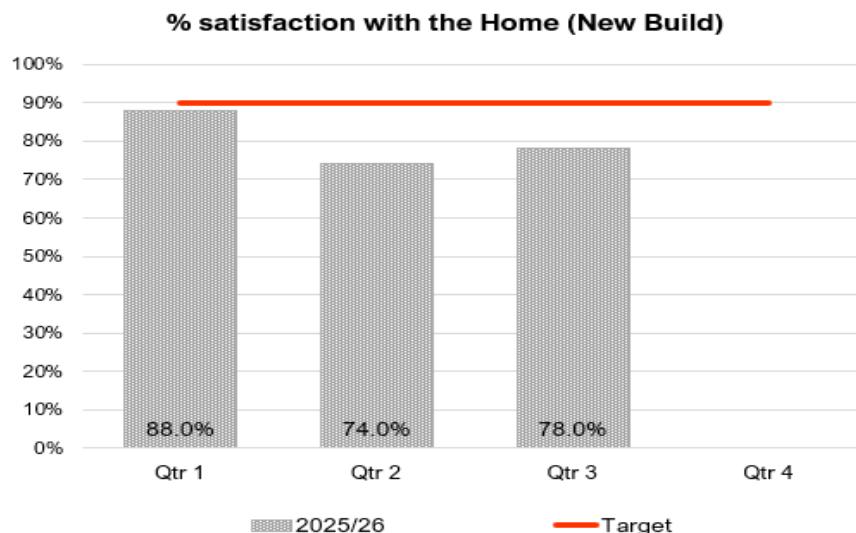

New claims: Oct had **4 new claims**, Nov had **5 new claims + 1 reopened**, showing a continued upward trend, however, no specific reason for this.

Expenditure Breakdown

Financial Year	Legal/Consultancy Costs	Compensation payments	Work given to external contractors
2022/23	£12,250	£41,500	
2023/24	£125,055	£36,526	
2024/25	£233,622	£49,756	£128,223
2025/26	£322,975	£30,292	£134,552
	last month to £331,643.80 ▲+2.68%	last month to £31,294.02 ▲+3.31%	last month to £139,307.91 ▲+3.53%

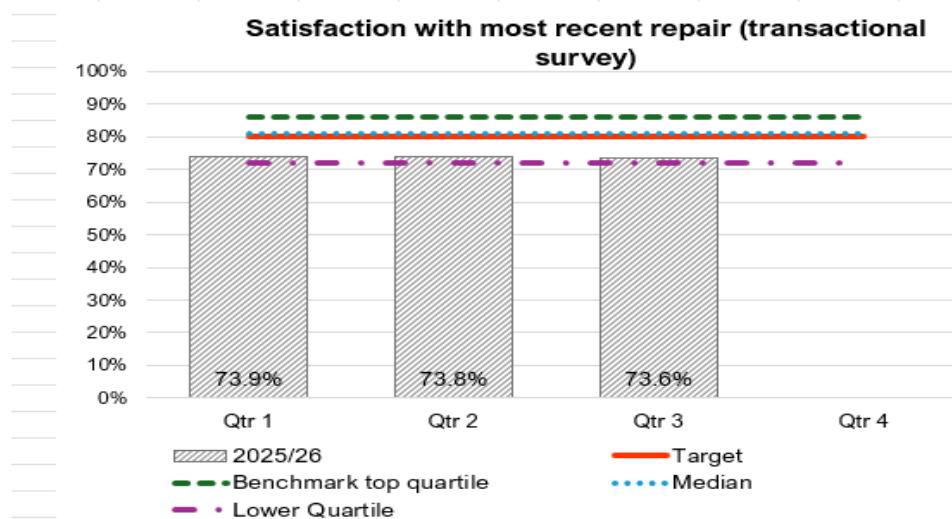

The Tenant's Voice

Feedback from tenants helps shape services and provides the necessary challenge to make improvements. We have access to feedback for satisfaction with a new build home and the responsive repair service via the surveys below, which are completed at, or very close to, the time the service was received. We are looking to expand these types of 'instant feedback' surveys in 2025/26 for parts of the planned works and tenancy management services.

% satisfaction with the new home (transactional survey)

Qtr 1: Aragon and Sackville Close development feedback. Those satisfied fed back the generous room sizes, thermal insulation and landscaping around the properties. negative feedback reported install problems with some of the fittings and fixtures, and the smaller garden sizes.
 Qtr 2: 46 responses - Positive feedback included cosy and safe home, generous size and welcoming spaces. Negative feedback includes snagging issues, the use of drugs (odours permeating flats), the cost of heating, problems with ASB around the bin stores and a poor quality intercom system. 3 developments were impacted by heating & hot water issues.
 Qtr 3: result based on 95 surveys. Positive feedback praises the high living conditions and good location, negative feedback includes drug smells, lack of security for parcels and outstanding snagging issues.

satisfaction with most recent repair (transactional survey)

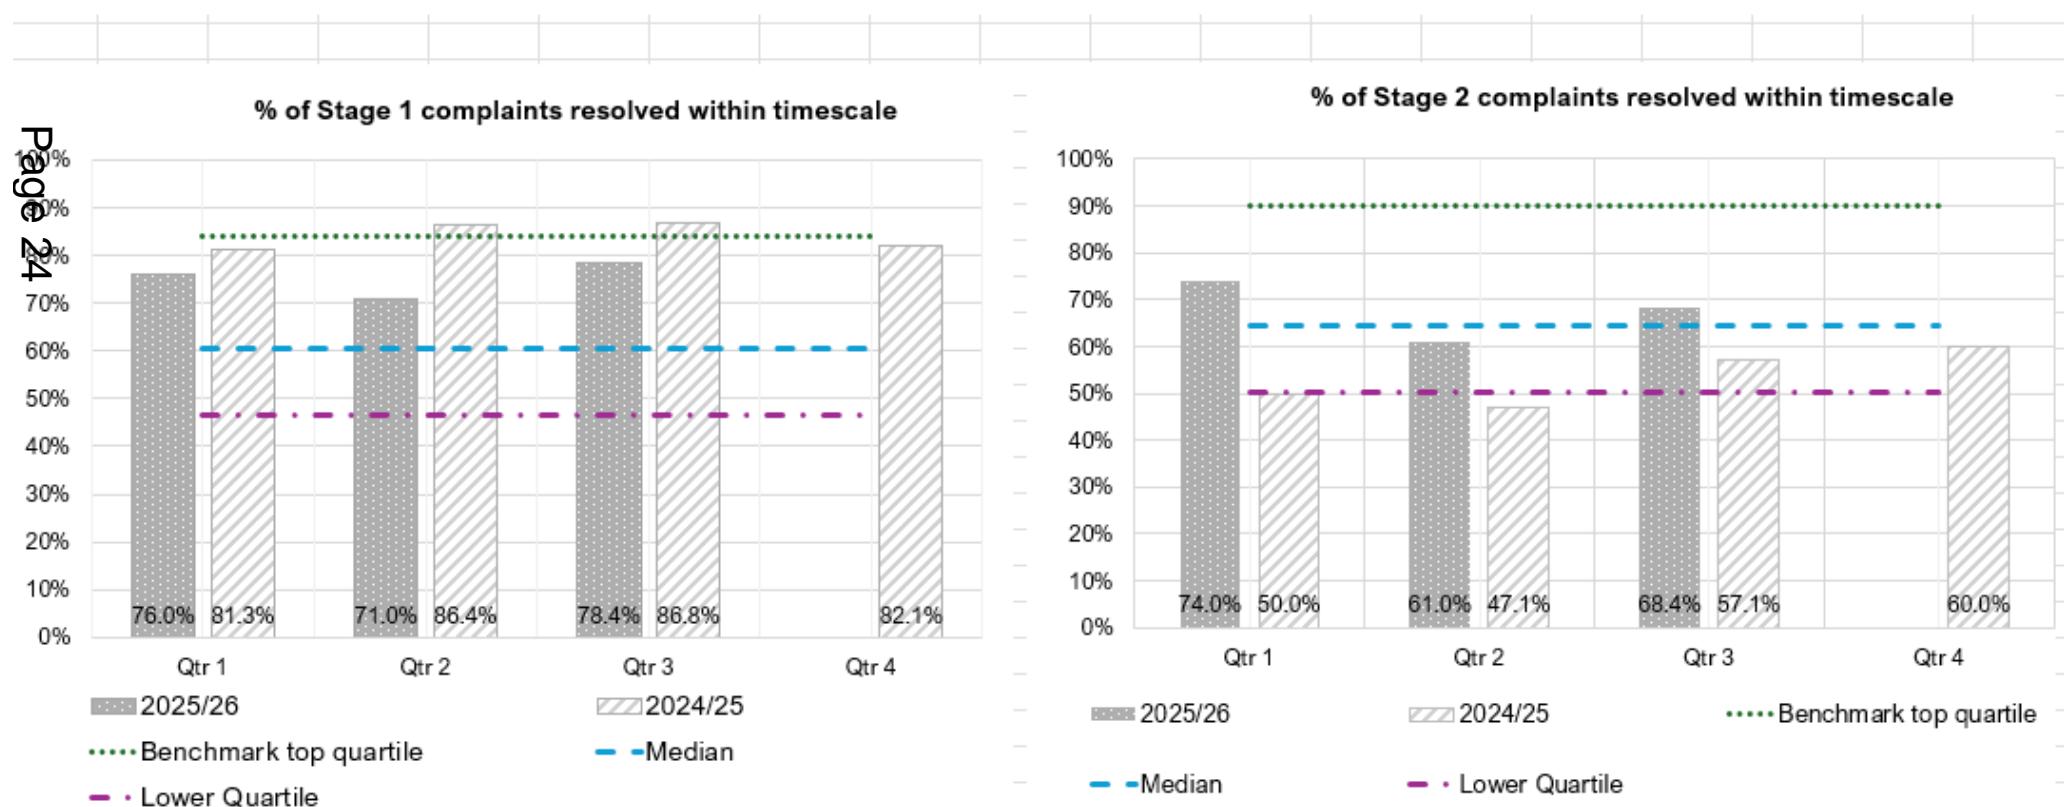

Qtr 1: Results are based on 23 returned surveys in Qtr 1. Four surveys reported a 1 for satisfaction in May - 2 were due to the DLO not showing up. Follow up has been requested by the Works Planner. 16 surveys reported a 5 out of 5 service. The data used for benchmarking are authorities with a DLO.
 Qtr 2: results based on 42 surveys. 5 surveys reported a 1 for satisfaction in Qtr 2; including wrong trade sent for the job and workman didn't attend appointment.
 Qtr 3: results based on 72 surveys. Lower scoring survey feedback related to unfinished work (right first time) and missed appointments.

% of complaints resolved within timescale

There has been an improvement in response times for both stage 1 and stage 2 complaints this quarter. Performance remains better than in 2024/25, and Housing Leadership Board will continue to monitor response times to complaints across relevant housing teams.

The Housing Service is committed to:

- Responding to complaints promptly and within Ombudsman timescales
- Ensuring the responses to a stage 1 complaint are appropriate and tackles the cause of the complaint.
- Monitoring the root cases of complaints within services, to better understand where improvements should be made.

Engagement with tenants

Since April 2025 resident engagement activity has had significant influence on several key areas:

- Tenant Satisfaction Survey Action Plan: Residents' recommendations for service improvement were added to the TSM action plan following the latest 2025/26 survey results.
- Estate Walkabouts: a refreshed initiative to bring together council staff, contractors, members and residents in walking through our estates to examine service standards regarding communal area, window cleaning and grounds maintenance as well as identifying estate improvements. Four estate walkabouts have been organised this Summer and Autumn across the city as part of a pilot phase, so far this has enabled residents to raise issues with key housing staff in-person and discuss wider community problems. A more comprehensive schedule will be planned for 2026.
- External Planned Maintenance Contract: being re-procured with tenants and leaseholders on the evaluation panel, for the contract of an estimated value of £35 million.
- Open Door review: residents who sit on the 'Open Door' editorial panel and the elected HAB Reps were consulted in August 2025 about the review of our tenant and leaseholder magazine, their feedback was a key part of forming the options appraisal that is being developed.
- Education and Engagement in Fire Safety: the elected HAB Reps requested a dedicated meeting in September 2025 to provide feedback and suggestions for increasing capacity around engagement and education in helping to carry out our Fire Safety in Communal Areas Policy.
- Window Cleaning Contract: will be re-procured with residents on the evaluation panel for contract of an estimated value of £300K. Procurement began in September 2025, and a new contract is likely to commence in April 2026.
- Annual Report to Tenants and Leaseholders: in the Autumn/Winter 2025 edition of our Open Door magazine we published an annual report to communicate key performance information in different areas of our housing services and to demonstrate how we are meeting the Regulator's four consumer standards.
- Tenant and Leaseholder Involvement Strategy: the elected HAB Reps and some other involved residents took part in an in-person workshop in August 2025 to determine and develop the objectives that will underpin the refresh of our Resident Involvement Strategy. More engagement activity with a wider group of residents took place in November 2025 to refine the draft strategy, followed by a wider consultation with all tenants and leaseholders in December 2025.

Cambridge City Council

Housing Advisory Board Paper

1. HRA Budget

Responsible Officer	Jody Etherington & Samantha Shimmon
Contact Details	Tel: 07743 180011 Email: samantha.shimmon@cambridge.gov.uk
Purpose of Paper	To give an overview of the HRA budget to Housing Advisory Board
Brief Summary	These slides bring together the discussion points for Housing Advisory Board on the HRA Budget including annual rent increase, rent convergence and budget bids. This also includes a member briefing on rent convergence to provide additional information on rent convergence, this is for information only.
Is the paper going to Cabinet or either Scrutiny Committee's?	Budget is going to Scrutiny, Cabinet and Full Council.

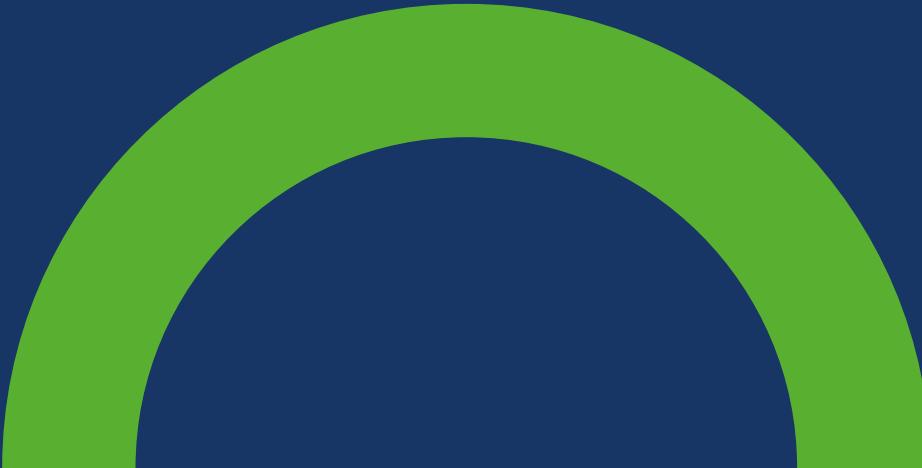

This page is intentionally left blank

Any questions?

Briefing Note – Benefits of Reintroducing Rent Convergence

Purpose

To brief Members on the importance and benefits of reintroducing rent convergence for Cambridge City Council tenants, the Housing Revenue Account (HRA), and the future delivery of services and new council homes.

Background

Social Rents are currently calculated using a formula set by the Regulator of Social Housing, and this is known as formula rent. However, Cambridge City Council as with most social landlords finds many of its rents below formula rents due to different historical charging structures. This results in new tenants paying much more for their home than those who have held their tenancy for much longer.

For a short period between 2011 and 2015, social landlords were allowed to use rent convergence at a rate of £2 per week to gradually over time bring all their rents up to formula rent.

In Summer 2025 Government conducted a consultation on the re-introduction of Rent Convergence and asked the benefits of its re-introduction, at what rates £1 or £2 per week and for what time period it should be allowed for with up to 10 years as the longest option. The Council responded to this consultation indicating its support for Rent Convergence at £2 per week for the time period it took to take all rents up to formula rent (more information on formula rent can be found here [Rent Standard April 2023](#)).

Saville's on behalf of the Chartered Institute of Housing also conducted a piece of national analysis on rent convergence which demonstrates the need for its re-introduction and that £2 per week delivers the most benefits balancing affordability of £1, £2 or £3 per week. [Saville's Rent Convergence Analysis](#)

Cambridge City Council—along with 108 other local authorities— signed the national *Securing the Future of Council Housing* report led by Southwark Council. A key recommendation in that report is that Government must reintroduce rent convergence, which was halted in 2015 following four years of rent cuts and a rent freeze. This has left many councils with significant funding gaps in their Housing Revenue Accounts.

In the same period, social landlords have faced rapidly increasing costs and major new statutory obligations including:

- Social Housing Regulation Act 2023

- Building Safety Act 2022
- Fire Safety Act 2021
- Forthcoming changes through the new Decent Homes Standard, Minimum Energy Efficiency Standards, and Awaab's Law

As a result, landlords have had to prioritise essential safety investment, reducing capacity to build new homes and deliver decarbonisation programmes.

Why Rent Convergence Matters

Rent convergence ensures that identical properties are charged similar rents based on the property itself—not on when a tenant moved in. At present, neighbouring households in similar homes can pay vastly different rent solely due to historical rent policies. This is fundamentally unfair and creates ongoing inequality within our communities.

Impact in Cambridge

- 5,612 council homes currently below their formula rent
- Average difference: £10.53 per week below formula rent
- Largest difference: £57.93 per week below formula rent

Without rent convergence, these disparities will persist indefinitely.

Financial Benefits to the HRA

The Council's preferred option is convergence at £2 per week.

Weekly Increase Allowed	Timescale	Annual Additional Income	Equivalent Investment Benefit
£2 per week	Over 5 year business plan	£2m per year	6/7 new council homes, or 500 Decent Homes upgrades, or 70 homes retrofitted annually
£1 per week	Over 5 year business plan	£1m per year	5 new council homes, or 250 Decent Homes upgrades, or 35 homes retrofitted annually
If all properties at formula rent	Up to 29 years	£3m+ per year	10 new council homes, or 750 Decent Homes upgrades, or 110 homes retrofitted annually

Introducing convergence more slowly would mean:

- More borrowing required to fund legal compliance, safety and retrofit works
- Less funding available for new council housing
- Increased future financial risk to the HRA

If the Council failed to introduce rent convergence, this would result in additional borrowing of £122million over the 30-year business plan to maintain and manage our current stock and build our current development pipeline.

Impacts on Tenants

For those in financial hardship, the change will have little or no financial impact:

- 65% of tenants currently receive some form of benefit support
- 55% receive maximum Housing Benefit or Universal Credit housing costs
- For most households entitled to support, the £1–£2 weekly increase will be fully or largely covered

Forecast wage inflation is expected to outpace CPI + 1% until at least 2030, meaning convergence at the proposed rate is not anticipated to create affordability risk for the majority of tenants.

In addition, convergence will:

- Remove unfair inequalities in rent between neighbours
 - Create simpler, fairer, and more transparent rent structures
-

Timing

Government has indicated a decision on Rent Convergence in January 2026, including at what rate it can be implemented and from what date.

The Council recommends implementation from 1 April 2026 provided this is in line with the announcement in January 2026.

Delaying beyond 2026 risks:

- Wage inflation falling below CPI + 1%, increasing household impact
 - Further pressure on HRA resources hindering service delivery and compliance programmes
-

Risks of Not Reintroducing Convergence

If convergence is not reinstated:

- Cambridge residents will continue to experience unfair rent inequality
 - The HRA will remain structurally underfunded
 - Delivery of decent homes improvements and retrofit upgrades will slow further
 - Fewer new council homes will be delivered
 - Increased borrowing will be required, reducing long-term financial resilience
-

Conclusion

Rent convergence is a fair and essential mechanism to restore HRA sustainability and secure the future of council housing in Cambridge:

- Fairer rents for tenants
- Stronger financial position for the Council
- Better investment in existing homes and more new homes delivered

Reintroducing convergence at £2 per week from April 2026, is the most responsible option for both tenants and the housing service.

Cambridge City Council

Housing Advisory Board Paper

Tenant and Leaseholder Involvement Strategy 2026-2028

Responsible Officer	Kate Grigg, Resident Engagement Manager, kate.grigg@cambridge.gov.uk
Purpose of Paper	<p>This report provides an update on the development of a revised Tenant and Leaseholder Involvement Strategy for those who live in properties owned and managed by Cambridge City Council. The strategy responds to regulatory change, updated local priorities and resident feedback.</p> <p>The Social Housing (Regulation) Act 2023 sets out standards for all registered social housing providers to achieve. Part of this directly refers to tenant engagement, with providers required to take tenants' views into account in their decision-making and how their services are delivered.</p> <p>This report seeks to provide the Housing Advisory Board with assurance on the progress made in strengthening a framework of involvement so that tenants and leaseholders are able to shape service delivery, influence decision making, hold their landlord to account, and that we communicate effectively on important matters with residents.</p> <p>As part of our work in developing this revised strategy, we have researched good practice regarding resident involvement from other social landlords. With Local Government Reorganisation (LGR) on the horizon we have also compared this draft strategy with South Cambridgeshire (as the only other council to own and manage its own housing stock in the LGR options) to make sure there is broad alignment.</p> <p>It is recommended that The Housing Advisory Board:</p> <ol style="list-style-type: none">1. Reviews the revised approach of the Tenant and Leaseholder Involvement Strategy 2026-2028.2. Notes that the strategy will be supported by an annual action plan, to be developed with the Board after the strategy is adopted.3. Agrees that progress will be reported annually to the Board.

Brief Summary	<p>This strategy aims to create more meaningful opportunities to influence housing services, supporting residents to take part in ways that suit them, and making sure everyone can see the difference their voice makes.</p> <p>It includes a practical action plan, with timescales, responsibilities and ways to track progress, and is grounded in resident feedback, staff insight and sector best practice.</p> <p>The strategy has four objectives with accompanying actions towards achieving them. These have been co-developed as a product of the workshops and consultation we have held with residents. There is more detail about this in Appendix 1 'Overview of Engagement and Feedback'.</p> <p>The strategy supports compliance with regulatory expectations for resident involvement as set out in the Social Housing (Regulation) Act 2023.</p> <p>Adoption of the new strategy is expected to deliver:</p> <ul style="list-style-type: none"> • Increased trust and confidence in how housing services responds to residents. • A more diverse and representative range of residents involved in shaping housing services. • Clearer accountability and transparency through published outcomes and performance reporting. • Improved resident satisfaction with involvement opportunities and communication
Is the paper going to Cabinet or either Scrutiny Committees?	No

Cambridge City Council Tenant and Leaseholder Involvement Strategy (2026–2028)

Accessibility of document

Our aim is to make our services easy to use and accessible for everyone. We will take steps to make any reasonable adjustments needed for you to contact us, access our policies, or any requests to provide responses in other formats. Depending on the individual's needs, these might include but is not limited to:

- Using larger print, or a specific colour contrast
- Having an 'easy read' version of the document
- Having a translation of the document
- Having the document in Braille format

If you would like to contact us about having a copy of this document in another format or language, please call us on 01223 457000, or write to us at Cambridge City Council, PO Box 700, Cambridge CB1 0JH.

Resident involvement

Cambridge City Council is committed to consulting with residents to ensure we reflect your views and experience in how we deliver your housing services. This strategy has been created in collaboration with our tenants and leaseholders. The following resident groups were involved with providing input on this strategy:

- Housing Advisory Board Tenant and Leaseholder Representatives
- Resident Focus-groups
- Resident 'Armchair Reviewers'
- Wider Resident Consultation

Foreword

Foreword by Resident Reps/Exec member for Housing to be completed once adopted.

Introduction

This strategy sets out how Cambridge City Council will involve tenants and leaseholders in shaping housing services. It explains how we will listen, act, and show the impact of resident views. It reflects feedback from residents, staff, and councillors, and aims to build a culture of trust, inclusion, and continuous improvement.

In this strategy the term ‘resident’ refers to anyone living in Cambridge City Council-owned properties, this includes tenants, leaseholders and shared owners.

We define resident involvement as: *“Tenants and leaseholders taking part in the decision-making process and influencing choices which affect the housing services, homes and communities in which they live”*.

The lived experience our residents offer is invaluable in shaping housing services and ensuring those services meet the needs of our residents, enabling our city to be ‘One Cambridge, Fair for All’.

Regulatory and legislative requirements

This strategy has been developed to fulfil the updated regulatory requirements of social housing providers, and in accordance with the legislation below. It is also intended to complement any existing legal requirements for resident involvement.

It has been designed to align with best practice in the sector including the National Housing Federation’s “Together with Tenants” charter, as well as recommendations for resident involvement set out by the Chartered Institute of Housing and the Tenant Participation Advisory Service.

- Revised Consumer Standards (Effective April 2024)
- Social Housing (Regulation) Act 2023
- Building Safety Act 2022 – Section 91
- Housing Act 1985 – Section 105
- Landlord and Tenant Act 1985 – Section 20

How we shaped this strategy

To make sure this strategy reflects what really matters to residents, we held a series of workshops to co-develop the objectives and actions in this strategy, we also created a consultation to gather insights from our wider resident base on the draft content.

The aim of these workshops and consultation was to focus on creating a shared understanding of how we can improve involvement opportunities, and making sure that the residents can help shape the future of our housing services.

We engaged with over 50 residents about the refresh of our Tenant and Leaseholder Involvement Strategy. We would like to express a huge thank you to all residents who have been involved in bringing the new strategy to life. This feedback has been central to the strategy, and it will continue to guide how we work with residents going forward.

There is more detail about this in Appendix 1 'Overview of Engagement and Feedback'.

Our vision

Cambridge City Council wants to make sure every resident feels heard, respected, and involved in shaping the housing services that matter to them. The development of this strategy is grounded in resident feedback, staff insight and sector best practice.

The Tenant and Leaseholder Involvement Strategy is about building stronger connections with our residents, so we can better understand diverse perspectives, and empower every voice within our communities.

It aims to create more meaningful opportunities to influence housing services, supporting residents to take part in ways that suit them, and making sure everyone can see the difference their input makes.

We are keen to promote resident involvement that improves community cohesion, environmental outcomes and resident wellbeing, as well as reducing the stigma associated with social housing.

To help us put residents at the centre of what we do, and address the issues raised through engagement, we have set four objectives with accompanying actions towards achieving them. The strategy will also have performance measures to assess impact, and an annual action plan, with timescales, responsibilities and ways to track progress.

Objectives – what we are trying to achieve

1. Embed Resident Involvement Across Housing Services

Build a culture of trust, transparency and accountability by involving residents in the way the housing services operates.

2. Ensure Resident Involvement is Accessible and Inclusive

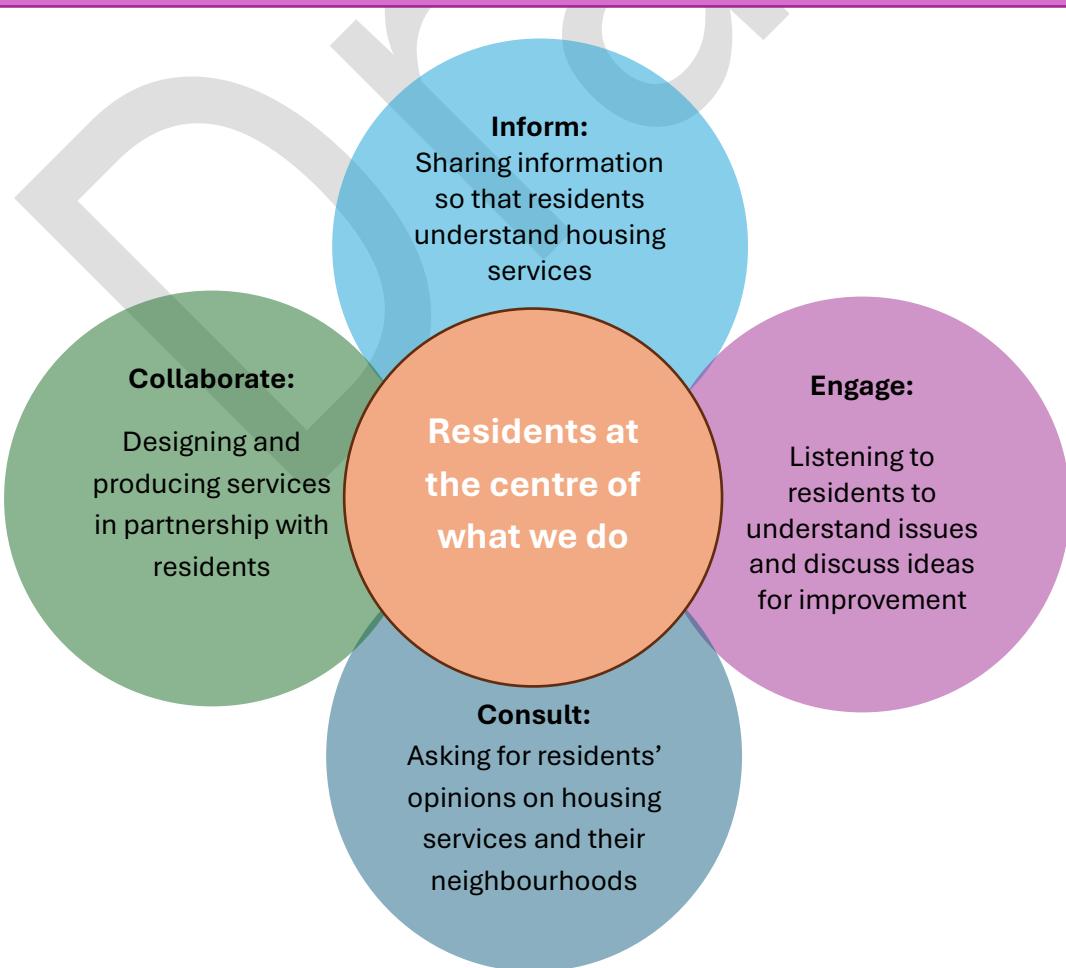

Give all residents opportunities to engage meaningfully, regardless of background or circumstance.

3. Enable an Empowered Resident Voice through Involvement

Strengthen the role of residents in shaping decisions and influencing outcomes.

4. Listen, Learn and Improve

Demonstrate how we use feedback and data to ensure residents are heard, and that we are improving services and meeting standards.

Actions – what we will do

These actions set out to continue the work that we already do with resident involvement, as well as committing to improving through the new actions developed by residents.

1. Embed Resident Involvement Across Housing Services

Build a culture of trust, transparency and accountability by involving residents in the way the housing services operates.

Continued Practice:

- Include ‘resident involvement’ in relevant staff inductions and the development of new roles, so they can identify and promote resident involvement opportunities.
- Maintain the involvement of residents in recruitment panels for relevant senior housing staff, and on the evaluation panels for procurement of significant contracts.
- Ensure that resident priorities are recognised when developing involvement opportunities or improving housing services.

New Actions:

- Establish a “Resident Voice in All Policies” principle: to ensure resident input is considered and built into the development and review of housing policy.

2. Ensure Resident Involvement is Accessible and Inclusive

Give all residents opportunities to engage meaningfully, regardless of background or circumstance.

Continued Practice:

- Build upon our offer of varied involvement options, both online and in-person, in areas and at times that suit resident needs.
- Further identify and remove barriers to participation (e.g. digital access, time constraints).

New Actions:

- Develop an annual engagement plan including digital content, printed materials, and community outreach.

- Work towards a broad and representative group of involved residents to reflect the diversity of our communities.

3. Enable an Empowered Resident Voice through Involvement

Strengthen the role of residents in shaping decisions and influencing outcomes.

Continued Practice:

- Support the elected tenant and leaseholder representatives to hold the council to account through resident-led challenge and make recommendations for improvements.
- Extend the support on offer to build residents' confidence and skills in getting involved so they can be effective in their roles.

New Actions:

- Promote an 'Impact Tracker' showing how different resident input has shaped decisions.
- Introduce 'task and finish' groups for residents to play a role in understanding and improving key service/performance areas – e.g. repairs, complaints.

4. Listen, Learn and Improve

Demonstrate how we use feedback and data to ensure residents are heard, and that we are improving services and meeting standards.

Continued Practice:

- Widen our use of surveys, forums, and estate walkabouts to gather resident input on local priorities.
- Enhance our "You Said, We Did" communication loop to show how feedback leads to action.

New Actions:

- Publish an 'Annual Tenant and Leaseholder Report' combining performance data and engagement outcomes.

Resident Involvement Activities

We want residents to get involved in a way that works best for them, based on time commitments, circumstances and practical needs, such as childcare, travel, or internet access. Residents can choose how and when to get involved, with flexible options to suit different lifestyles and needs.

We will continue our current offering and build upon this to include the following:

Our offer	Activities you can get involved in	Time commitment
Keeping you informed	<ul style="list-style-type: none"> • Reading the Open Door magazine delivered to you • Reading the Annual Tenant and Leaseholder Report • Checking updates on our website • Following our social media posts • Signing up to receive email newsletters and involvement opportunities 	Low Low Low Low Low
Consulting with you	<ul style="list-style-type: none"> • Completing surveys and statutory consultations • Contributing your views on priorities in neighbourhoods and where regeneration is planned • Making suggestions about housing services or ideas for improvement 	Low Low Low
Engaging with you in the community	<ul style="list-style-type: none"> • Joining community days in your neighbourhood • Joining estate walkabouts • Participating in the tenant and leaseholder garden competition • Joining neighbourhood volunteering activities 	Medium Medium Medium Medium
Collaborating with you	<ul style="list-style-type: none"> • Attending an online resident forum (e.g. Repairs and Maintenance) • Joining our Open Door Editorial Panel • Reviewing housing policy through becoming an 'Armchair Reviewer' • Joining a 'task and finish' group focussed on key service/performance areas • Becoming an elected Tenant and Leaseholder Representatives on Housing Advisory Board • Joining a procurement panel to assess relevant contracts 	Medium Medium Medium Medium High High

What are the advantages of getting involved?

Through engaging in any of the activities above we want to ensure that residents can:

- meet new people
- give something back to their community and improve their housing service
- develop as an individual and get a reference for a job
- get free training in developing skills and knowledge in IT and housing
- get their travel and care expenses met
- learn how the council works
- enjoy the benefits of 'thank you' events, or incentives like being entered into a prize draw for shopping vouchers
- get access to [membership of TPAS](#)
- get help with digital access, e.g. Tenant Representatives having a laptop loan

Get involved!

Getting involved is how you, as a Cambridge city Council tenant or leaseholder, can influence the housing services you receive from us. You are the best people to tell us what works well and where we can do better, and your involvement makes a real difference. Throughout the year we run a number of surveys, online meetings and in-person events so you can express your views.

If any of the resident involvement activities interest you - drop us an email on resident-involvement@cambridge.gov.uk or telephone **01223 458323**.

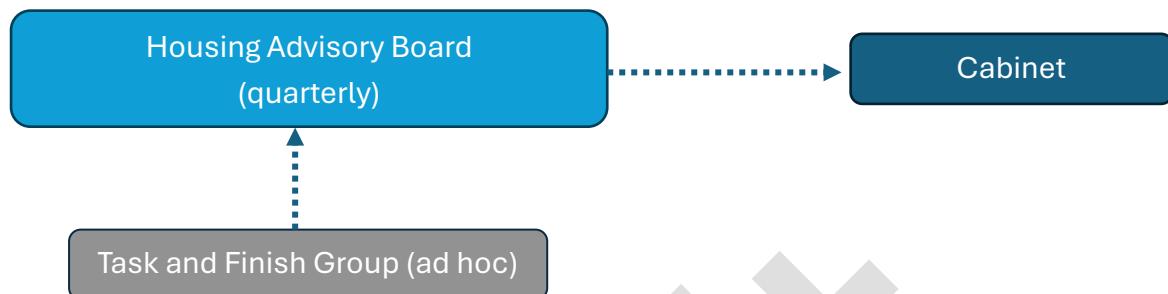

If you want to find out more you can also visit our [resident involvement](#) webpage.

Elected tenant and leaseholder representatives

At Cambridge City Council we have six resident representatives, five tenants and one residential leaseholder, that sit on the **Housing Advisory Board** alongside councillors.

Housing Advisory Board provides advice and recommendations to Cabinet, and feedback to help us improve our housing service. It supports the decision-making process and monitors our performance as a landlord.

The Housing Advisory Board can create task and finish groups to carry out deep-dive projects on housing service areas and feed into the decision-making process through recommendations. Task and finish group membership could include members of the Board as well as wider residents or external advisors.

Resident representatives are elected every four years (via an independent electoral service), through a ballot sent to all tenants and leaseholders addresses. These representatives help influence how we run our housing service. Their contribution ensures that resident views and experience are at the forefront of housing decisions.

Tenant and leaseholder representatives are entitled to a remuneration of up to £1,400 a year depending on how much time they give to the role and are expected to meet the criteria set within the terms of reference for the Board, as well as the Code of Conduct for all tenant and leaseholder representatives.

A few examples of previous work resident representatives have been involved in:

- Assessing bids for the Estate Cleaning Contract and the Internal Planned Maintenance Contract.
- Proposed and ensured funding for a new Education and Engagement Officer to help deliver the Fire Safety in Communal Areas Policy.
- Part of the Council's New Build Consultation Group, looking at the detail of consultations and decent issues arising from the Council's next 1000 council homes strategy.

To contact the representatives directly you can email - hsc.residents@gmail.com

Impact – how we will measure success

This strategy will be delivered over the next two years, from 2026 to 2028. We have developed performance measures to demonstrate progress in resident involvement.

Each year, we'll also create a clear action plan that sets out what we're aiming to improve, who's responsible for making it happen and when residents can expect to see progress.

Targets will be set in the accompanying action plan to this strategy, we will monitor progress through:

Primary Measures (directly linked to RI activities):

- Number of resident involvement activities offered throughout the year (e.g. forums, estate walkabouts, surveys).
- Number of residents engaged in involvement activities.
- Number of new residents participating for the first time.
- Diversity of residents participating in involvement activities.
- Number of housing services influenced through resident involvement.
- Resident satisfaction with involvement opportunities.

Secondary Measures (linked to wider housing outcomes):

- % satisfaction that the landlord listens to tenant views and acts upon them (TSM).
- % satisfaction that the landlord keeps tenants informed (TSM).
- % agreement that the landlord treats tenants with fairness and respect (TSM).

Reporting and Accountability:

- Create an accompanying action plan to ensure we achieve our objectives.
- Elected Tenant and Leaseholder Representatives involved in shaping the action plan and reviewing progress.
- Annual updates to the Housing Advisory Board.
- Annual Tenant and Leaseholder Report shared with all tenants and leaseholders.

Appendix 1: Overview of Engagement and Feedback

Focus Groups and Consultation

Before writing the draft strategy we organised an in-person focus group in August 2025 with our elected resident representatives, and other involved residents. Seven residents attended this, and the aim was to gather thoughts and ideas on their priorities and to co-develop the objectives and actions of the strategy.

We then held a further focus group online with 12 residents in November 2025 to capture additional views of on the objectives and actions that had been co-developed, so that we could further refine these.

In December 2025 we consulted with our wider resident base on the draft strategy so far. We created a survey that was publicised in the Autumn/Winter edition of Open Door magazine with the option to complete online, via phone or post. In total we received 30 responses (18 tenants and 12 leaseholders) that captured structured feedback on the draft strategy content as well as allowing more general feedback about resident involvement.

While we believe our approach to co-developing this strategy captured as many resident views as we could in the time we had, there are some demographics that were not represented in the process. It is anticipated that as the new strategy takes shape, we will address the barriers that some groups experience in getting involved so that we can improve this in future.

Summary of Feedback from Focus-groups and Consultation

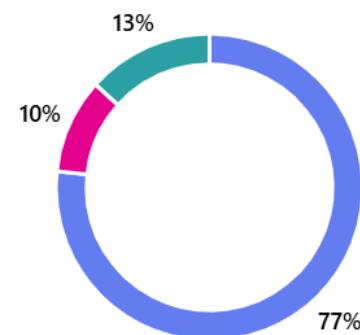

As a result of the feedback we received, we made changes to this draft strategy. This includes:

- removed repetition of topics
- adjusted some of the language to make it less technical
- a desire for stronger links between involvement and day-to-day service delivery, particularly repairs and maintenance.
- the need for embedding multiple communication channels, recognising that digital access and preferences vary.
- ensuring that involvement opportunities clearly lead to residents being able to see impact and outcomes communicated.

A summary of the feedback we received from our focus groups and consultation is below.

Overall do you think that the content is easy to read and understand?

● Yes	23
● No	3
● Not sure	4

Main themes

1. **Embed Resident Involvement across Housing Services:** build a culture of trust, transparency and accountability by involving residents in the way that the council operates.
 - **Challenges:**
 - Concern about siloed communication between tenant and leaseholder teams. Separate channels reduced shared understanding and collaboration.
 - **Suggestions:**
 - Improve cross-team collaboration and ensure joint forums where relevant.
 - Focus on day to day service quality, especially repairs & maintenance. Several respondents felt involvement should be tightly linked to improving the basics and holding contractors to account - *“Concentrate more on the day to day issues, such as repairs & maintenance... Getting the small stuff right would be a start.”*
 - Communicate service changes before they happen (e.g., keys, storage, estate changes) and give residents practical routes to resolve issues - *“I experienced bike storage... key lockers being changed while I was out of the country... I did not receive any communication about this.”*
2. **Ensure Inclusivity:** give all residents opportunities to engage meaningfully, regardless of background or circumstance.
 - **Challenges:**
 - Digital-only communication excludes many older residents and those with limited digital access or confidence.
 - Many residents have different preferences on how they'd like to be involved, there has to be a range of options available.
 - **Suggestions:**

- Recognise literacy barriers and language needs.
- Traditional methods (letters, leaflets, door-knocking) are really valued by many residents - *“Face to face and spoken word is still the best way to communicate and engage.”*
- Important to use traditional methods alongside digital, maintain options for online meetings and surveys for flexibility.
- Offer multiple channels—not digital-only and not face-to-face-only. People want email and online options, but some (especially older or disabled residents) rely on telephone and value in-person contact - *“Telephone contact. We oldies find digital contact increasingly difficult to keep up with.”*
- Schedule meetings outside standard working hours as many can't attend during the working day.
- Provide advance notice and clear scheduling for things like estate walkabouts and community events.
- **Communication preferences** (what people asked for most often):
 - Count from comments: Email Updates (7), Online/Virtual Meetings (6), Face-to-face Events (5), Telephone Contact (4), Printed Material (1)
- **Barriers to participation** (most cited):
 - Time/work commitments (6); Lack of information/awareness (4); Distance/travel (1); Caring responsibilities (1); Digital access/usability (1).

3. Enable an Empowered Resident Voice: Strengthen the role of residents in shaping decisions and influencing outcomes.

- **Challenges:**
 - Residents often feel their input “goes into a black hole” with no visible outcomes. Showing that input leads to action, impact is key.
 - Ensure there are opportunities for residents to get involved at a strategic level.
- **Suggestions:**
 - Strong desire to close the feedback loop and show impact. Residents' welcome tools like an Impact Tracker, provided it is transparent (who it reports to, how it leads to change) - *“I can see the value of an impact tracker... “How is the Impact Tracker going to work... who is responsible for its assessment?”*
 - Early engagement is important to residents, not after decisions are made - *“Be open and tell about plans BEFORE they have been finalised so there is a feeling of inclusion.”*
 - Transparent communication on high-impact topics (e.g., cladding for leaseholders) - *“There has been a lot of uncertainty around external*

cladding... Proactive communication outlining the options would help trust.”

4. **Listen, Learn and Improve:** Use feedback and data to ensure residents are heard, and that we are improving services and meeting standards.

- **Challenges:**

- Residents not always aware of the opportunities available for getting involved.
- Negative experiences with tone of communication from some council teams.
- Feedback is collected but communication of outcomes takes too long.

- **Suggestions:**

- Tie involvement activities to visible service improvements (repairs, communal areas, parking, anti-social behaviour) Setting up dedicated groups that focus on specific issues, like repairs.
- Customer service and culture. Residents want a service-oriented approach, with calls answered and emails returned - *“You phone and rarely get to speak to anyone... Email someone and... you rarely get a reply.”*
- Make ‘human contact’ easy. There’s a strong preference for being able to reach a person (not just self-serve or FAQs) and to get timely replies - *“Make it easier for residents to speak to a human being.”*
- Suggestions for better communicating outcomes included combining high-level stats with personal stories in Open Door magazine.

- **What works well with current resident involvement opportunities?**

- Resident experience that when getting involved voices are valued and a feeling that involvement is democratic
- In-person events like estate walkabouts are viewed as one of the best ways to engage with residents
- Online surveys are seen as easy, quick ways to contribute—especially for people short on time - *“Surveys like this are really easy to engage with.”*

- **What barriers to participation have you experienced?**

- Lack of awareness of existing initiatives (e.g., Armchair Review for policy feedback)
- Time, and sometimes the scheduling of events being during the working day.

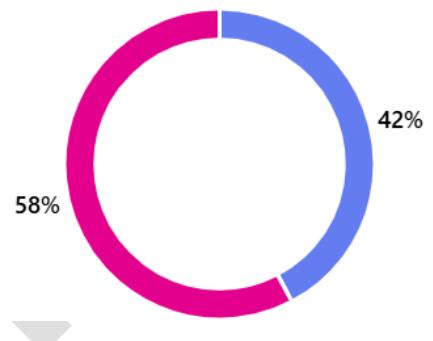

- **What incentives could demonstrate that residents time is valued?**

- Seeing the impact of resident input is enough in itself for some residents, rather than other rewards
- Suggestions included vouchers, social events, recognition schemes, and exploring gamified engagement or alternative initiatives to replace time credits.

Demographic information from Consultation Responses

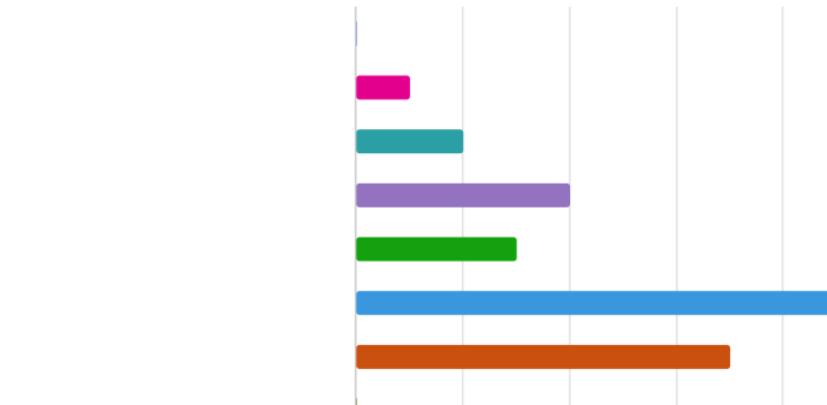

How do you identify?

HOUSING IMPROVEMENT PLAN

2025-26 onwards

A summary of activity and progress to date

Samantha Shimmon -Assistant Director Housing & Health
samanthashimmon@cambridge.gov.uk

Table of Contents

Introduction	2
Progress Summary as at January 2026.....	3
Completed	4
Underway – high priority	4
Still to be started but within timeframes.....	5
Behind schedule / Not completed to timeframes	5
Summary	6

Introduction

In June 2025, the Housing Service underwent an inspection by the Regulator. Prior to this, the service had carried out a self-assessment against the Consumer Standards and commissioned a mock inspection in March 2025 to identify areas for improvement. An Improvement Plan was developed based on these reviews.

The Regulator awarded a C2 grading, with key issues relating to stock condition survey coverage, outstanding medium-risk fire safety remedial actions, and concerns about the accuracy and storage of compliance data.

Following the inspection, the Housing Leadership Board updated the existing Improvement Plan to incorporate the Regulator's recommendations. The plan is delivered by the Housing Improvement Group—comprised of operational and support service managers—and overseen by Housing Leadership Board, which receives quarterly progress and risk reports.

The Housing Advisory Board will also receive quarterly summary updates on delivery progress going forward.

Progress Summary as at January 2026

The Improvement Plan brings together actions identified through the service's self-assessment, external reviews, and the Regulator's inspection findings.

These activities fall into three categories:

- *Task* – a one-off piece of work that can be delivered within current resource levels.
- *Process review* – a planned piece of work requiring input from both service representatives and supporting teams to evaluate current workflows and deliver efficiencies.
- *Project* – a piece of work that requires input from several services to deliver a specific goal.

with the current plan being weighted towards more complex, multi-service projects. Some of these projects are already underway, but a number still require scoping and resourcing. Progress is overseen by the Housing Leadership Board, with regular monitoring of risks and opportunities.

Completed

A number of key foundational actions have already been delivered, strengthening compliance, governance, reporting, and tenant involvement. Completed activities include:

- ✓ Further developing the Housing Advisory Board to strengthen tenant representation at a strategic level (May 2025)
- ✓ Agreeing a timetable for sharing key housing, health and safety, and compliance performance with stakeholders (Jun 2025)
- ✓ Strengthening oversight of strategy, risk and performance through work with the Cabinet Lead for Housing, Cabinet and Scrutiny (Jul 2025)
- ✓ Allocating the Executive Member for Housing as the responsible Member for complaints (Aug 2025)
- ✓ Completing an audit of the complaints 'Casetracker' system to ensure robust reporting to the Regulator (Sep 2025)
- ✓ Establishing a dedicated project team to review and update housing webpages content (Oct 2025)
- ✓ Securing Cabinet approval for delivering a five-year cyclical stock condition survey programme (Oct 2025)
- ✓ Reviewing damp, condensation and mould processes in preparation for Awaab's Law (Oct 2025)
- ✓ Establishing an interim reporting solution for damp, condensation and mould cases, in line with Regulator requirements and Awaab's Law (Oct 2025)
- ✓ Developing enhanced reporting mechanisms for fire-safety remedial actions (Nov 2025)

Underway – high priority

Work is progressing across several high-priority areas, with a focus on strengthening compliance, asset intelligence, contract management, and tenant engagement. Key activities currently underway include:

- Procuring a provider to deliver the stock condition survey programme
- Strengthening contract management by developing key performance targets and service standards as part of the new procurement framework
- Advancing the MRI Asset project, including installation of modules to support servicing, health and safety, and planned works automation; alternative solutions for compliance planning—such as TEAMS (asbestos) and the 'Safety Culture' app—are also being explored

- Analysing day-to-day repairs and voids data to identify component replacements delivered outside planned programmes and updating the asset system accordingly
- Ensuring that management companies provide required compliance certification for blocks under management or in freehold ownership
- Verifying the accuracy and completeness of records for smoke, heat, and CO detector installations and servicing
- Delivering actions within the Tenant Satisfaction Measures (TSM) action plan
- Undertaking a tenant census to improve understanding of household needs
- Reviewing the tenant engagement strategy within the required timeframe and ensuring tenants actively participate in the review
- Clarifying processes and developing procedures for allocating ASB cases between City Homes and Public Safety
- Expanding and defining the scope of tenant engagement opportunities

Still to be started but within timeframes

- Develop policies for the 6 key areas of compliance that outline the council's approach to management, and the standard of service tenants can expect.
- Finalise the Repairs & Planned maintenance Policy
- Check process for gas capping and follow-up procedures is in place and being adhered to
- Develop a cyclical audit schedule across all areas of compliance
- Develop a mechanism for stakeholder reporting against the Tenancy Standard
- Undertake ASB, hate incidents and domestic abuse reporting for HRA properties to the Cabinet Member for Housing
- Deliver a series of pop-up service community workshops; ensuring service managers are engaging with residents on the ground
- Tenant census – identify opportunities within systems to capture household detail from various sources

Behind schedule / Not completed to timeframes

- Produce a standard specification for receiving asset information from all contractors replacing components in stock
- Trial the standard specification for receiving asset data in new builds at the Aylesborough Close Development
- MRI Asset project – gas servicing module
- CORE lettings data - investigate whether data can be bulk loaded into Enterprise

Summary

Overall, work is progressing across all major improvement areas, with foundational compliance and asset management activities now underway and several early actions completed. The next quarter will focus on procurement of the stock condition programme, strengthening contractor performance management, and advancing the tenant engagement and census workstreams.

Resourcing levels continue to affect delivery timescales. Staffing changes and the embedding of new roles following the major service transformation in 2025 have resulted in some actions falling behind schedule. Although not ideal, revising certain timeframes has been unavoidable.

Additionally, some actions have required adjustment where further work has been identified. It is important to recognise that the Improvement Plan is a live document and will continue to evolve as new information and requirements emerge.

Housing Advisory Board Paper

1. Lift report for Housing Advisory Board

Responsible Officer	Will Barfield
Contact Details	Tel: 01223 457843 Email: will.barfield@cambridge.gov.uk
Purpose of Paper	To provide information about lifts and lifting equipment in the Council's own housing stock, and provide reassurance that lifts, and equipment are well-maintained and complaint
Brief Summary	The paper gives an overview of the number of lifts, lifecycles, maintenance arrangements, compliance inspections, and arrangement in place to deal with breakdowns and emergencies.
Is the paper going to Cabinet or either Scrutiny Committee's?	No – for information only

This page is intentionally left blank

Lift Report for Housing Advisory Board

Purpose

The report has been requested by Housing Advisory Board to increase the knowledge and understanding of the passenger lifts and other lifting equipment that are currently operational in the Council's HRA properties.

Lift Assets

The Council currently has a range of lifts and other lifting equipment in the housing asset portfolio. See table below for details:

Type of lift	Number
Passenger and platform lifts	69
Through floor lifts	9
Hoists	34
Stairlifts	91
Specialist baths / other lifting equipment	tbc

The number of lifts in the housing stock has increased in recent years because of the new build housing programme. Planning regulations require new blocks of flats to have lifts installed to improve accessibility.

The Council also installs lifting equipment as part of the disability adaptations programme. This includes stairlifts, through floor lifts, hoists and other specialist equipment.

Condition and lifecycles

Passenger lifts are expected to have a 30-year lifecycle. The current housing capital investment plan makes provision for lifts to be replaced when they are 30 years old. Most of the lifts in the housing portfolio are relatively new and in good condition.

Maintenance and servicing arrangements for lifts

Lifts and lifting equipment on housing estates are subject to regular servicing and inspection. Contractual arrangements are in place so that lifts have planned servicing and maintenance carried out on a regular basis.

Type of lift	Contractor	
Passenger and platform lifts	TSG Building Services / EMS lifts	
Through floor lifts	EMS Lifts	
Hoists	EMS lifts	
Stairlifts	EMS Lifts / Stannah	
Specialist baths / other equipment	Various	

Lifts installed in new build housing are usually serviced and maintained by the housing developer for the first twelve months, before being added to the TSG Building Services contract.

TSG Building Services sub-contract lift servicing and maintenance to specialist sub-contractors. Most lifts are serviced by Direct Lift Company. From January 2026 all lifts installed in recent new building housing schemes will be serviced and maintained by Orona Lifts. Most of our new building housing schemes are fitted with Orona lifts.

Lift Compliance

Lifting equipment must comply with the Lifting Operations and Lifting Equipment Regulations 1988 (LOLER). These require that lifts are subject to “thorough examinations” carried out by specialist contractors. This happens alongside regular servicing contracts.

The Council contracts “thorough examinations” to a company call HSB and these are procured via the Council’s insurance team.

a. Passenger lifts

All LOLER inspections for passenger lifts are up to date and compliant with legislation. A Council Officer in the Risk and Compliance team in City Services

Group receives all thorough examination reports, and ensures that actions are followed up liaising with the planned maintenance contractor.

b. Through-floor lifts and hoists and other specialist equipment

Through-floor lifts and hoists have an annual service and require regular LOLER inspections. Not all LOLER inspections have been carried out in the past, but these are now being implemented through the Council's contract with HSB.

c. Stairlifts

Stairlifts have an annual service only; a LOLOR inspection is not usually required.

Breakdowns / Complaints

There is a 24/7 emergency response services for all lift breakdowns included in the lift servicing contract. The contract requires attendance to site within a maximum of two hours for lift breakdowns and repair, and within a maximum of 1 hour for all 'person trapped' calls.

In the past 12 months, TSG Building Services have responded to 144 callouts for lift breakdowns. In addition, there have been five emergency call outs relating to people trapped in lifts.

The time take to repair lifts can sometimes result in long period of time when a lift is not working and this can cause inconvenience and stress to residents. There can sometimes be long lead-in times for spare parts. It is hoped that the new servicing arrangement put in place with Orona lifts will result in quicker repair times for lifts in our new build blocks of flats.

Lift operations can be affected by user damage caused by overloading, forcing doors, or wedging doors open.

Cabinet Forward Plan of Key and Non-Key Decisions for Cambridge City Council

January 2026

Introduction

This Forward Plan sets out the key and non-key decisions to be taken by the Cabinet. This includes any decisions that are due to be taken in private.

Executive Forward Plan and Notices required by the Local Authorities (Executive Arrangements) (Meetings and Access to Information) (England) Regulations 2012

There is a legal requirement for local authorities to publish a notice setting out the key decisions that will be taken by the Cabinet or Individual Cabinet Member at least 28 clear days before such decisions are to be taken. This Forward Plan incorporates the Notice of Intention to make Key Decision and sets out the decisions which are intended to be taken at Cambridge City Council by Cabinet or Individual Cabinet Members. Whilst this document provides details of known decisions for the following month, where details of decisions to be made after this period are known, they are provided for information.

The Plan also sets out where, if at all, it is anticipated that part of a Cabinet meeting will be held in private. This is where confidential or exempt information (as defined in the constitution) is likely to be made known. Notice is hereby given that it may be necessary for part of a Cabinet meeting to be held in private because it becomes apparent at the meeting that confidential or exempt information will otherwise be made known. Should this become apparent at the meeting the relevant part of the meeting will only be held in private upon the passing of a resolution which (where exempt information will be made known) describes the description of exempt information pursuant to Schedule 12A of the Local Government Act 1972.

The Forward Plan will be updated and rolled forward on a monthly basis. As this takes place, the programme will be adjusted and further decisions will be added or anticipated ones may be rescheduled or removed.

If a key decision is not included in the published Forward Plan for 28 clear days before a decision needs to be taken the Chairman of the Overview and Scrutiny Committee must be notified and a supplement to the Forward Plan published at least 5 clear days before the date on which the decision is proposed to be taken. If the date by which the decision has to be made makes compliance with this requirement impracticable the decision can only be made with the consent of the Chairman of the Overview and Scrutiny Committee who must be satisfied that the making of the decision is urgent and cannot reasonably be deferred.

If it is necessary to discuss an issue in private and 28 days' notice has not been given the decision may only be taken or the item discussed in private with the agreement of the Chairman of the Overview and Scrutiny Committee who must be satisfied that the need for the item to be taken to the meeting is urgent and cannot reasonably be deferred

Key Decisions

The Key decision thresholds at Cambridge City Council are:

- The decision is likely to result in the City Council incurring expenditure or making savings in excess of £500,000 (excluding procurement decisions or decisions relating to land acquisition or disposal). Excluded from this definition are all loans to banks or other financial institutions made in accordance with the Treasury Management Policy.
- Procurement decisions involving expenditure of £1,000,000 or more. In relation to letting contracts the key decision is seeking authority to procure (and delegate authority to award).

Or

- An acquisition or disposal of land or an interest in land with a value in excess of £600,000.
- The decision is likely to be significant in terms of its effects on communities living or working in an area comprising one or more wards in the City.
