Dear **Debbie** Re-60 Panton St

Following our recent meeting at the guild hall, i hope you and your colleague,s will take another look at the breach of planning, on the grounds that I have not blatantly ignored the council.

I have not read the final approved plan correctly and kept the ceiling levels the same. This would be the normal procedure and that is why i did this. I have not gained or had benefit by doing this in any way.

The building in question will be completely hidden from anybodies view and is enclosed in the yard area so it will not have any impact on any person or the environment, I would be willing to speak to my neighbour about this i may hay have annoyed him storing light materials on the flat roof which he could see but this was temporary and not long term, I would also welcome any committee members to come and view it if they wish before the meeting.

I am not willing to submit a full planning application again but would submit a amendment, I have enclosed photo,s Inside to show the same ceiling level, and outside to show the height and view the garden dividing walls are eight feet high and there will be a building in front of the sliding doors making the yard area enclosed. I hope we can come to a positive and sensible agreement.

Please let me know if you want any more photos

Yours Sincerely
