2012/13 Revenue and Capital Outturn, Carry Forwards and Significant Variances

Not a Key Decision

1. Executive summary

- 1.1 This report presents a summary of the 2012/13 outturn position (actual income and expenditure) for services within the Customer Services & Resources portfolio, compared to the final budget for the year. The position for revenue and capital is reported and variances from budgets are highlighted, together with explanations. Requests to carry forward funding arising from certain budget underspends into 2013/14 (and for capital later years) are identified.
- 1.2 It should be noted that outturn reports being presented in this Committee cycle reflect the reporting structures in place prior to the recent changes in Executive portfolios. In light of those changes (together with the requirement to report outturn on the basis of portfolios in place during 2012/13) members of this committee are asked to consider the proposals to carry forward budgets and make their views known to The Leader, for consideration at Strategy & Resources Scrutiny Committee prior to his recommendations to Council.

2. Recommendations

Members of the Scrutiny Committee are asked to consider and make known their views on the following proposals:

a) To carry forward £105,170 of revenue budgets from 2012/13 to 2013/14, as detailed in Appendix C.

b) To carry forward capital resources to fund re-phased net capital spending of £881,000 from 2012/13 into 2013/14 and future years, as detailed in Appendix D.

3. Background

Revenue Outturn

- 3.1 The outturn position for the Customer Services & Resources portfolio, compared to the final revenue budget, is presented in detail in Appendix A.
- 3.2 Appendix B to this report provides explanations of the main variances.
- 3.3 Appendix C sets out the final list of items, for this portfolio, for which approval is sought to carry forward unspent budget from 2012/13 to the next financial year, 2013/14.
- 3.4 The overall revenue budget outturn position for the Customer Services & Resources portfolio is set out in the table below:

| Customer Services & Resources Portfolio 2012/13 Revenue Summary | £ |
|---|-------------|
| Final Budget | (5,308,410) |
| Outturn | (5,452,450) |
| Variation – (Under)/Overspend for the year | (144,040) |
| Carry Forward Requests: | |
| Revenue and Benefit Services | 41,910 |
| Human Resources | 63,260 |
| Total Carry Forward Requests | 105,170 |
| Net Variance | (38,870) |

The variance represents 0.7% of the overall portfolio budget for the 2012/13 financial year.

Capital Outturn

- 3.5 Appendix D shows the outturn position for schemes and programmes within the Customer Services & Resources portfolio, with explanations of variances.
- 3.6 An overall underspend of £1,427,000 has arisen. £881,000 is due to slippage and re-phasing of the capital programmes is required to transfer the budget into 2013/14 and future years. The remaining variance of £546,000 is a result of net underspends on individual capital schemes and programmes.

4. Implications

- 4.1 The net variance from the final budget, after approvals to carry forward budget of £105,170 from 2012/13 to the next financial year, 2013/14, would result in a reduced use of General Fund reserves of £38,870.
- 4.2 In relation to anticipated requests to carry forward revenue budgets into 2013/14, the decisions made may have a number of implications. A decision not to approve a carry forward request will impact on officers' ability to deliver the service or scheme in question and this could have staffing, equal opportunities, environmental and/or community safety implications.

Revenue Budget - 2012/13 Outturn

Appendix A

Customer Services & Resources Portfolio / Strategy & Resources Scrutiny Committee

Revenue Budget - 2012/13 Outturn

Changes between original and revised budgets may be made to reflect:

- portfolio and departmental restructuring
- approved budget carry forwards from the previous financial year
- technical adjustments, including changes to capital accounting
- virements approved under the Council's constitution
- additional external revenue funding not originally budgeted for

and are detailed and approved:

- in the June/July committee cycle (outturn reporting and carry forward requests)
- in September (as part of the Medium Term Strategy (MTS))
- in the January committee cycle (as part of the budget setting report)

- and via technical adjustments/virements throughout the year

Revenue Budget 2012/13 - Major Variances from Final Revenue Budgets

| Service Grouping | Reason for Variance | Amount £ | Contact | | |
|--|--|-------------|------------------|--|--|
| Resources Finance - General | Of this overall variance £66k relates to impairment of Icelandic Bank deposits, as a consequence of changes in the expected profile of repayments. (The overall percentages which the Council expects to recover remain unchanged.) Of the remaining variance the majority, £30k, reflects a larger proportion of investment interest receipts being attributable to the Housing Revenue Account as a result of higher than anticipated HRA balances. | 94,544 | Julia Minns | | |
| General Properties and Grand Arcade | The variance is primarily due to the receipt of one-off additional rental income of \pounds 39,884 following the completion of the rent audit for the Grand Arcade shopping centre during the latter stages of the 2012/13 financial year. | (30,755) | Philip Doggett | | |
| Mill Road Support Services | The variance is largely due to the delay in recruiting to vacant posts following the Support Services restructure. | (28,663) | Althea Mejias | | |
| Customer and Communitv Revenue and Benefit Services | The main variances are due to unspent Homelessness Prevention Funding of (£41,910) for which a carry forward of budget is requested (see Appendix C), higher than forecast recovery of benefit overpayments from claimants no longer claiming benefits of (£11,581), higher than forecast recovery of Local Taxation legal costs of (£16,887) and higher than forecast Local Taxation Court costs recovered of (£46,739) - £280,009 collected against forecast of £233,270 (a one-off increase of £46,739). | (128,703) | Alison Cole | | |
| Environment Land Charges and Searches | Over achievement of fee income as a result of an increase in the number of Land Charge requests over the last 2 quarters. | (24,567) | Paul Boucher | | |
| Tourism | Commercial and Guided Tours income was lower than the same period last year. This was due to a 25% reduction in footfall as a result of very poor weather and the Olympics having a negative effect on local tourism. The final outturn position was reduced through the introduction of daily monitoring of income performance from the beginning of January 2013. This will now continue moving forward. The service is reviewing all its income generating activity and identifying opportunities to both increase footfall to the TIC, whilst also reducing dependency on income through the TIC. In light of the challenge with the Tourism service, other cost centres within the service were equally closely monitored, resulting in a net £8k overspend across the Tourism and City Centre Management service as a whole. | 30,235 | Emma Thornton | | |

Revenue Budget 2012/13 - Major Variances from Final Revenue Budgets

| Service Grouping | Reason for Variance | Amount £ | Contact |
|-------------------------------------|--|-------------|----------------------|
| Support Services | | | |
| Accountancy and Support Services | Net underspending for the year predominantly relates to employee budget underspending of £13,620 reflecting an overprovision for employer pension fund contributions, combined with an underspending of the budget for recruitment. The balance relates to net underspending of various supplies and services budgets. | (27,220) | Julia Minns |
| Human Resources | The underspend includes the balance of the organisational change budget of £63,260, which has been allocated to the Managers' Skills programme. The Managers' Skills programme has now been implemented and will be completed by August 2014. A carry forward of budget of £63,260 will be required to complete the programme (see Appendix C). The remaining variance relates to minor employee cost and supplies and services underspends. | (103,614) | Deborah Simpson |
| іт | The variance is mainly due to minor underspends on IT Contract costs. | (48,628) | James Nightingale |
