

Ramsden Square / Kings Hedges Road Verge Parking Project

Residents' Consultation

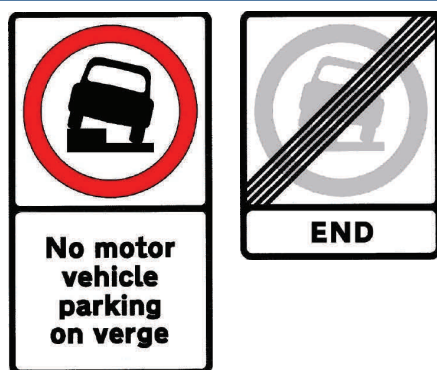

Cambridge City Council, through its Environmental Improvement Programme, is proposing to introduce controls to stop parking on the grass verges. The area covered by these restrictions would be:

- a section of Kings Hedges Road (from St Kilda Avenue to near the junction with Milton Road)
- all of Ramsden Square.

Parking on verges can cause obstructions, and reduce visibility and access for pedestrians. The proposal will also improve the appearance of the area and help those verges that have been badly damaged to recover - such as those in the photo on the right.

The type of signs that would be used to show the stretches of road where verge parking is prohibited.

We want to hear your views on this proposal - if you are in support or oppose it. If you are able, please let us know by email at eipprojects@cambridge.gov.uk (clearly stating the road you live on); or alternatively, fill out the survey on the back of this leaflet and return it to the FREEPOST address below by Friday, 19 September 2014. All responses will be reported to the North Area Committee meeting on 30 October 2014 at which a decision will be made on the scheme.
