1. Introduction

This report provides an overview of City Council Refuse and Environment and Streets and Open Spaces service activity relating to the geographical area served by the West Area Committee. The report identifies the reactive and proactive service actions undertaken in the previous year, including the requested priority targets and reports back on the recommended issues and associated actions to be targeted in the following period. It also includes key officer contacts for the reporting of waste and refuse and public realm issues.

2. Target setting and recommendations

All those at Committee have an opportunity to suggest issues that they would like to see tackled in the neighbourhood area during the upcoming period to help shape the activity to be undertaken within the public realm. Following suggestions that are received the relevant teams will consider the suggestions, and will prioritise work, responding reactively where appropriate and programming some work for the future. All suggested targets will be reported back on in the following period to update members and the public on the status of the issue. Recommendations will also be presented to the committee for consideration and to aid discussion.

Recommendations

The following are suggestions for members on what action could be considered for priority within the West Area for the period of September to November 2016.

Continuing priorities*

Number	Priority details
1	Enforcement and City Ranger patrols in the City Centre to address issues of illegally deposited trade waste and littering. Justification: Littering and illegal deposited waste if left un-investigated can cause ongoing issues and encourage antisocial behaviour. This priority has been included as a continuation to balance the high standard of trade waste management and litter patrols already existing in the West/Central area and to continue to build upon this work further.
2	Joint working patrols to address the issues of fly tipping at <i>Adam and Eve Street</i> recycling points Justification: Fly tipping at Adam and Eve Street recycling centre continues to be a problem for fly tipping figures across the West area. Enforcement and ranger work to focus on these areas will balance education and enforcement to deter this problem.

New suggested priorities

Number	Priority details
3	Pressure wash and cleanse of the public recycling points at Castle Park, Park Street, Adam and Eve Street and Lammas Land. Justification: Recycling points can become dirty and clogged with litter, and detritus, deep cleansing of them can encourage people to recycle and dispose of rubbish more responsibly.

* Amendments to continuing priorities are shown in italics

Members are recommended to endorse the above recommendations or to make proposed amendments, and in doing so to consider the community intelligence questions below to help shape the public realm work.

Community intelligence questions

1. What activities should be considered as part of ward blitzes?
2. What geographical locations would benefit from targeted work? (including public realm enforcement activity and clean-up work by the community payback)
3. What locations for new and replacement general waste, recycling and dog bins (in line with resources available) should be considered?
4. Where and when the dog warden service should patrol in order to target dog fouling?

3. Routine activity

Streets and Open Spaces teams work closely with residents, community and campaign groups to keep Cambridge clean, green and safe. Street cleansing works to clear shop fronts and maintain all residential streets to a good standard of cleaning by sweeping them regularly. The team empties litterbins and dog bins across the city parks and open spaces, as well as removing graffiti and clearing needles and fly tipping.

The grounds maintenance team maintains all council housing and highway grass and shrub beds across the city, and carries out the maintenance of the city's cemeteries and crematoriums as well as the maintenance of all parks across the city. The City Rangers team provide a street-level, face-to-face contact point for people to raise any cleanliness and public safety issues that they might have concerning their neighbourhood.

The dog warden patrols within Cambridge to increase people's awareness of the requirement to clear up after their pets, as well as collecting stray dogs within the city and works alongside animal charities to deliver educational roadshows. Investigation of instances of environmental crime in public places across the city is carried out by the public realm enforcement team. As well as undertaking enforcement action where necessary, the team provide advice for residents and businesses on issues including fly tipping, litter, waste, illegal advertising, abandoned shopping trolleys, verge parking and abandoned, untaxed and nuisance vehicles.

4. Specific issues and actions

The following specific issues were identified for targeted action in the previous period. The following tables summarise the action undertaken and current situation, whether ongoing or completed, for each issue.

Priority 1	Enforcement and City Ranger patrols in the City Centre to address issues of illegally deposited trade waste and littering.
Action Taken	Continued patrols to deal with the ongoing issues with trade waste being managed correctly within the city centre. Issues to address the way in which companies maintain their own waste and that correct procedures are followed. Various issues have been followed up with some investigation work which ultimately has resulted in some educational work and in certain circumstances fixed penalty notices. Litter hot spots have been focused on in this period and various FPN's has been issued to the general public. Work with local shops and businesses to eradicate smokers from outside their business have also been a main focus which has brought success in Regent Street.
Current Situation:	Ongoing
Priority 2	Proactive small scale graffiti and flyposting removal by City Rangers and Operations Team across the West/Central area.
Action Taken	The rangers removed over a number of incidents of graffiti and flyposting from street furniture including lampposts, street signs and benches. The amount of graffiti within the West area wards has now reduced from previous periods and it is therefore recommended that this priority is removed.
Current Situation:	Completed
Priority 3	Ownership and cleansing of Garrett Hostel Lane ditches
Action Taken	The ownership of the ditches either side of Garrett Hostel Lane has highlighted that there does not appear to be an easily identifiable definitive owner at the current time. Work continues by the Operations team to clear litter from the ditches and to keep them to a standard of cleanliness until such time as ownership and responsibility can be established.
Current Situation:	Completed
Priority 4	Joint working patrols to address the issues of fly tipping at public recycling points
Action Taken	Adam and Eve Street: Adam and Eve Street recycling centre has been a major issue for some time and continued monitoring has taken place. A number of suspects have been dealt with for illegally dumping household waste within the recycling centre. There have also been incidents whereby business waste has been found inside some of the bins at the recycling centre and ongoing investigations are being conducted concerning this matter.
Current Situation:	Ongoing

	Lammas Land: Ten hours spent inspecting recycling point during routine patrols of Lammas Land area. Very few issues found. No current investigations or fines issued. To be inspected as part of routine patrols.
Current Situation:	Completed

Other issues:

Issue	Request for Christ's Pieces railings to be painted
Action Taken	This project has been agreed with the Development Team and added to the program of work for Community Payback. It is planned to undertake this work over several months during the Summer of 2016, and was started during August and September. This work is being undertaken in phases and the next section to be painted is near to the children's play area.
Current Situation:	Ongoing

Summary of operations cleansing data:

- Of the ten fly tips for the Castle ward, one fly tip was removed at Castle Park recycling centre; no other particular trends with types of fly tipped material were identified in this period.
- There were forty nine fly tips cleared from the Market ward, of this repeat incidents were on Adam and Eve Street recycling centre (8), City Road (5) and Park Street (5). Ongoing investigations are being undertaken with this repeat illegal dumping of waste. No other trends were identified in this period.
- Of the eight fly tips that were found in the Newnham ward, six were located at the Lammas Land recycling centre, no other particular trends with types of fly tipped material were identified in this period.
- Offensive language in the form of pictures of human anatomy was removed from Auckland Road in June and pictures of male anatomy were removed from Fisher Square in Market in June 2016.
- Market ward has witnessed an increase in detrimental graffiti instances from 29 in 2015 to 47 in 2016 (for the periods of June to August. 24 of the 47 instances in Market ward were in June 2016). The council are aware there has been an increase in anti-social graffiti in some wards, and we are working in partnership with other agencies including Cambridgeshire Police to tackle this problem. The council is responding to all reports of graffiti and undertaking proactive patrols and monitoring of hot spots. In addition within the city centre, the rapid response team is available to Cambridge BID businesses during the usual call out times to tackle issues as graffiti. The volume of graffiti has decreased from the previous period.
- Twenty five instances occurred in the west area in the time period June to August 2016. Of the 14 instances in Market ward occurred one instance involving 353 needles. This was found in Post Office Terrace (next to Norwich & Peterborough Building Society on St Andrews St), the area was cleared after homeless people had been sleeping here and 76 used needles and 277 new needles were cleared. Twenty were removed from opposite Brunswick Cottages on Auckland Road in August, 19 needles were removed from the garages on King Street in August 2016 and 50 needles were removed from the parking area to the rear of the University Centre on Granta Place in July, these were in a large bag and reported by a member of the public. Needles were also removed from In Castle eight needles were removed from the grassed area outside Shire Hall on Castle Street in August and one from St Peters Street.
- Three trolleys were impounded as abandoned.
