

SUMMARY OF FEASIBLE SECOND ROUND EIP SCHEME APPLICATIONS FOR 2016/17 - NORTH AREA

No.	Scheme Title	Scheme Description	Promoted by	Ward	Estimated Cost £	Secured funding contributions £	EIP Allocation requested	Comments
N5	Arbury Court parking bays	Protective barrier or bollards to rear of parking bays in service road, to prevent damage to fences of adjacent property in Redfern Close from parking vehicles.	Cllr M Todd-Jones	Arbury	2,000	-	2,000	Attempts have been made to protect fencing in the past but this has been ineffective and/or fallen into disrepair. The very close proximity of the fencing to the two bays limits the protective options available.
N6	Hanson Court green open space re-landscaping	Removal of base to former playground that is no longer required, and replacement with suitable landscaping (grass, with possible tree).	Cllr K Price	Kings Hedges	7,500	-	7,500	There is no local desire for further provision. Removal of the old base would increase the level of green space and appearance of the area. Approx 200 square metres of land involved.
N7	Hawthorn Way fencing	Provision of new replacement fencing around the green open space area adjacent to Chestnut Grove junction, to match that of better quality further along the street.	Cllr M Sargeant & County Cllr J Scutt	West Chesterton	5,000	-	5,000	There are two triangular shaped areas of established green open space on either side of the junction, and care would be needed to work around the roots of mature trees. An estimate of approx 75 metres of fence removal and replacement would be needed. Would require County Council Highways team agreement, possibly with a commuted sum to maintain.
N8	Humberstone Road trees	Replanting of suitable species of street trees to replace those lost over time, in keeping with other residential roads in the area.	Cllr M Sargeant & County Cllr J Scutt	West Chesterton	3,500	-	3,500	Any new trees planted within a hard landscaped highway environment will require the provision of suitable planting pits, both to support the tree's development and prevent damage to the highway. These requirements increase the cost considerably to around £3,500 per tree. There is one replacement planting opportunity currently outside No. 80.

APPENDIX A

N9	Leys Avenue to Arbury Court path	Improvement of path linking Leys Avenue with the rear access to Arbury Court, which has become uneven and broken over the years.	Cllr M Sargeant & County Cllr J Scutt	West Chesterton	7,500	-	7,500	The existing path is maintained by the Council's Housing service, and passes above the roots of adjacent trees - which as they mature are lifting and breaking up the path. A long term solution would require reconstructing and raising the path level, at a considerable cost beyond the scope of the EIP programme. A more cost effective, albeit shorter term, solution would be to simply overlay the existing path, lifting the level slightly as necessary. Subject to suitable approvals.
N10	Rackham Close boundary wall / fencing	Extend height of existing brick wall to rear of properties 1-6 Rackham Close forming boundary with St. Luke's Primary School with metal fencing. To complete a previous EIP / Safer City project for the area.	Cllr M Todd-Jones	Arbury	3,500	-	3,500	Installation of 450mm high metal fencing bolted to top of existing brick wall. Provisional cost estimate from January 2014 updated.
N11	Rackham Close lighting	Provision of additional lighting to rear of properties 1-6 Rackham Close adjacent to St. Luke's Primary School boundary. To complete a previous EIP / Safer City project for the area.	Cllr M Todd-Jones	Arbury	5,000	-	5,000	Provisional sum for the installation of 5 number solar illuminated bollards, or alternatively two number solar 'Balmoral' type 3 metre lighting units (to be determined).
N12	Provision of new street benches at various locations	Locations include Mitcham's Corner adjacent to Lloyds Bank / Tony's water trough, the junction with Springfield Road, Hawthorn Way fenced off area, Victoria Park junction with Victoria Road and Woodhead Drive junction with College Fields.	Cllr M Sargeant & County Cllr J Scutt	West Chesterton	5,000	-	5,000	Provisional sum for the installation of up to 5 new benches with some foundation/hardstanding base as necessary; up to £1,000 per unit. Most locations and bench specification will likely require County Highways or other third party approval.
