

SUMMARY OF POTENTIAL EIP SCHEMES FOR 2017/18 - NORTH AREA

No.	Scheme Title	Scheme Description	Promoted by	Ward	Estimated Cost £	Risk to Delivery Rating R/A/G	EIP Allocation requested	Comments
N1	Carlton Way (north) verge protection	Provision of further timber bollards to deter vehicle over-run and consequent damage, with re-seeding of verges, between Arbury Primary School and Ferrars Way.	Cllr M Todd-Jones	Arbury	5,000	Green	5,000	Would compliment previous, largely successful, work undertaken during 2015 that was limited by funding availability. Bollards utilised to prevent parking and protect verges and mature trees from damage. Approx 12 bollards needed.
N2	Carlton Way (south) verge protection	Provision of further timber bollards to deter vehicle over-run and consequent damage, on east side from Carlton Court to approx 10-14 Carlton Way.	Cllr M Todd-Jones	Arbury	2,500	Green	2,500	Approx 7 bollards suggested for three sections to prevent further damage to verges and trees from parking.
N3	Chesterton Road bus stop(s)	Improvement to bus stops, and shelters, close to the Lock footbridge and Job Centre.	Cllr M Sargeant	West Chesterton	10,000	Green	10,000	The existing bus shelter on the south (out-bound) side is no longer in the best condition, with usage disincentivised by it's enclosed form. There is a stop on the opposite side of the road, but no shelter. The sum suggested should be sufficient to provide a simplified replacement shelter on the south side or, alternatively, smaller 'micro-shelters' for each side.

APPENDIX A

N4	Chesterton Road tree lined avenue	Introduction of street trees to improve the environment of the road between Mitcham's Corner and the roundabout with Elizabeth Way.	Cllr D Tunnacliffe	West Chesterton	10,000	Red / Amber	10,000	Few street trees exist along this route and the highway environment is dominated by the needs of traffic and hard landscaping. The potential for establishing new trees is likely to be limited by lack of footway space, visibility splays, property entrances and public utility apparatus. Properly constructed tree pits would be needed to promote healthy growth and avoid damage to the highway. Cambridgeshire County Council approval needed. The allocation suggested might enable 2 or 3 new trees to be established.
N5	Chestnut Grove play signage	Installation of signage to direct potential users to the play area near Chestnut Grove.	Cllr M Sargeant	West Chesterton	1,000	Green	1,000	The open space and play areas sit between Chestnut Grove, Elizabeth Way and Milton Road. Whilst play facilities have been recently upgraded the area is under-utilised and the signage poor. Provisional sum should be sufficient to establish suitable signs at each entrance point.
N6	Gilbert Road bus shelter	Refurbishment and improvement of existing bus shelter adjacent to 64 Gilbert Road.	Cllr M Sargeant	West Chesterton	3,000	Green	3,000	The existing shelter is no longer in the best condition and lacks any seating. Sum indicated should be sufficient to either improve the existing shelter, or replace it with a smaller modern 'micro-shelter'.
N7	Leys Road / Highworth Avenue barrier	Refurbishment of the existing environmental / traffic access restriction between Leys Road and Highworth Avenue, including the introduction of measures to discourage use by motor-cycles.	Cllr M Sargeant	West Chesterton	4,000	Amber	4,000	The suggestion is to refurbish (and make good / repair) as necessary the existing planter arrangement that restricts through vehicular traffic, rather than replace it. The addition of effective measures to discourage motor-cycles (without impeding other users) is less straightforward.

APPENDIX A

N8	Hurst Park Avenue verge planting	Planting of highway verge margin at back of footway on north-eastern side of Hurst Park Avenue between Milton Road and the dental surgery.	Cllr M Sargeant	West Chesterton	1,000	Amber	1,000	Objective to create an urban mini-wildflower meadow at the entrance to the estate. Likely to require a Licence to Cultivate from the Highway Authority Cambridgeshire County Council. Establish whether ongoing management and maintenance could be taken on via local community group(s) to avoid adding to Council operating costs.
N9	Vie estate Chesterton signing	Provision of map type signing at the vehicular entrances to the estate from St. Andrew's Road and Church Street to assist visitors.	Ben Bradnack	East Chesterton	1,000	Amber	500	Area Committee to determine whether funding appropriate either in part, or whole, via EIP. If supported, officers advise it might best be achieved as a one-off grant contribution to the site management company (Encore Estate Management). Discussion needed to agree details, including ownerships, permissions necessary and arrangements for ongoing maintenance - in order to avoid future Council operating and replacement costs.
N10	Corner of Arbury Road / Campkin Road junction	Environmental enhancement of the landscaped bed on the corner of the junction adjacent to the doctor's surgery.	Cllr K Price	Kings Hedges	2,000	Green	2,000	This area might be better landscaped with suitable planting. The area is adopted public highway, but separated from the footways by a low timber rail fence. The addition of suitable flowering shrubs could add year round colour and interest. Investigate potential for community involvement with upkeep, to avoid adding to Council operating costs.

APPENDIX A

N11	Buchan Street shops area	Landscaping to small area of un-made ground between shops and car park.	Cllr K Price	Kings Hedges	2,000	Green	2,000	This area might be better landscaped with suitable planting. The addition of suitable flowering shrubs could add year round colour and interest. Investigate potential for community involvement with upkeep, to avoid adding to Council operating costs.
N12	Campkin Road shops	Further soft landscaping of the two circular tree bed areas on the shop forecourt fronting Campkin Road.	Cllr K Price	Kings Hedges	2,000	Green	2,000	The landscaping in these beds appears to have scope for enhancement to add colour to the existing trees. Addition of suitable flowering shrubs could add year round interest. Investigate potential for community involvement with upkeep, to avoid adding to Council operating costs.
N13	Arbury Town Park, Campkin Road	Establishment of wildflower planted bed areas to bring more colour over the summer period.	Cllr K Price	Kings Hedges	2,000	Green	2,000	Colourful planting requested to enhance the mature landscaping in this area. The summer of 2017 has seen a number of wildflower meadows established in other open spaces that does not add to Council operating costs, with a similar approach suggested here.
N14	Lawrence Way path heading to Nuns Way	Additional lighting and post and rail fencing, along with re-seeding of grass areas damaged by over-use.	Cllr K Price	Kings Hedges	5,000	Green	5,000	The lack of suitable lighting in the area restricts usage of these paths during darkness to access local amenities. Including improvements to fencing should encourage use of the formalised paths and allow grassed areas to recover.

APPENDIX A

N15	Alex Wood Road benches	Improvement of two public benches in Alex Wood Road adjacent to walkway to Cunningham Close, with possible addition of litter and dog waste bins.	Jennifer Hunt	Arbury	3,000	Amber	3,000	These two timber slat benches are looking tired and would benefit from refurbishment, or replacement. The practicability of adding bins will depend on the potential for efficient operational servicing.
N16	Humberstone Road landscaping	Reconfiguration of the landscaped area at the end of Humberstone Road joining Elizabeth Way, to improve appearance and access.	Cllr D Tunnacliffe	West Chesterton	5,000	Amber	5,000	No dropped kerbs to facilitate access by those requiring it. Improvements would require careful development to avoid conflict. Will require County Council approval and potentially repositioning of street lighting column in order to effect significant improvement.
N17	Mitcham's Corner cycle parking	Establishment of additional cycle parking stands around Mitcham's Corner.	Cllr D Tunnacliffe	West Chesterton	5,000	Amber	5,000	Mitcham's Corner is a well established local centre with a good variety of local shops and other amenities. A good number of cycle parking stand exist but there appears scope for adding more. City Council has minimal land in area with consents needed from County Council, and landowners, depending on location.
N18	Hawthorn Way trees	Establishment of additional trees on the 'green square' in Hawthorn Way.	Cllr D Tunnacliffe	West Chesterton	500	Amber	500	This area already contains one mature tree plus two younger trees and there may not be sufficient space for further tree planting. Requires further investigation, with provisional sum sufficient to establish a couple of trees if proves practicable. Ongoing management costs negligible.

APPENDIX A

N19	Craister Court landscaping	The two squares in between numbers 1-9 and 36-42 Craister Court are landscaped, but no longer in the best condition. Residents would like to see the areas improved.	Cllr K Price	Kings Hedges	5,000	Amber	5,000	Although the majority of properties in this area are now privately owned, the Council retains some housing stock along with responsibility for the upkeep of the open space areas. A project was allocated £5,000 EIP funding during 2012-13 but deprioritised based upon estimate costs and low public support arising from consultation. However, an aspiration to improve the area remains - and a more modest aspiration than previously proposed could again be considered.
N20	Hazelwood Close play area	Installation of a 'curve of light' style slide in to the main play area at Hazelwood Close.	Cllr M Todd-Jones	Arbury	1,500	Green	1,500	The Council has this piece of play equipment in store awaiting re-use. The main play area at Hazelwood Close is suited to, and would benefit from, it's installation. Area Committee to determine whether it supports the use of EIP funding to achieve this.
N21	Chesterton High Street tree replacements	Refurbishment of two existing tree pits on the north side of Chesterton High Street, opposite Maltsters Way, to support the healthy establishment of new trees.	Aboriculture Officer	East Chesterton	3,000	Green	3,000	Officer suggestion, with Area Committee to determine whether appropriate. Replacement trees for those previously lost are included in Council winter planting programme. However, the tree pits require some preparation work first that the budget for new trees is unable to afford.

TOTAL 73,500 0 73,000
