## Appendix 1 - Event Number and Limits by location

A1.1 Cambridge City Council is responsible for managing 85 parks and open spaces across the city. The city centre sites at Parker’s Piece, Jesus Green, and Midsummer Common are the most requested sites for events, especially commercial events, due to their central location, subsequent high footfall and good transportation linkages.

A1.2 The event limits for these key sites has been set via a review of the Event Framework Capacity Policy 2011 and these limits will remain unaltered with the exception of 2 medium sized events to be permitted in the Neighbourhood Parks category to enable utilisation of the larger community spaces in the city. These limitations are defined in the table below.

It should be noted that small events are only classified where numbers exceed 50 or there is infrastructure added that starts to impact on public use of the space.
