Provision of Portable Fire-Fighting Equipment at Tesco Stores

General

Portable fire extinguishers are provided as a means of first aid fire fighting equipment but should not be considered for use on a large fire or as an aid to escape. Their portability and immediate availability allows for prompt intervention by an individual at the start of a fire.

Therefore the suitability and location will dictate the types and quantity of fire fighting equipment that is required

Suitability

Imprex Foam Extinguisher

The general purpose extinguisher deployed at Tesco stores is a 6 Litre foam (Imprex) extinguisher. It can be used on solid carbonaceous fires (Class A) involving fuels such as timber, paper, plastic etc or on flammable liquid fires, such as petrol or cooking oil (Class B).

A simple formula is used to calculate the minimum number of general purpose (class A) and (class B) extinguishes that should be provided:

$$\frac{\text{The gross floor area (metres)} \times 0.066}{27^*} = \text{Number Class A extinguishers required (rounded up)}$$

(27 being the 'A' rating of the extinguisher)

$$\frac{\text{Largest volume of spill of flammable liquid (litres)} \times 10}{183^*} = \text{Number of Class B extinguishers required}$$

(183 being the 'B' rating of the extinguisher)

Carbon Dioxide Extinguisher

These are provided by Tesco stores on fires involving live electric equipment. There is no guidance on the numbers required, however, due to widespread use of electrical equipment in Tesco stores, they are readily available in most areas

Additionally fire blankets are available in cooking areas.

Location

A person should not travel more than 30 metres to reach a suitable fire extinguisher from any point within the store. Additional extinguishers (above those needed to achieve an 'A' rating) may need to be provided to meet this requirement, but this is unlikely due to the layout of most Tesco stores.

Where possible, extinguishers are located adjacent to fire alarm call points (which in turn are adjacent to fire exits) forming a fire point, where the alarm can be raised and a decision made whether to attempt to tackle the fire or flee through the exit.

Tesco is a large national operator with a range of head office and local support. The company has devised policies, procedures, systems and training to ensure that they sell alcohol in a responsible manner.

There is a detailed training programme which ensures that comprehensive training is provided to employees having regard to their role and the responsibilities and such training is regularly reviewed and appropriate records kept.

b) The prevention of crime and disorder

The premises will have digital CCTV system that covers many areas of the shop floor, including the main area which will be used for display of alcohol, Images will be retained for a minimum of 21 days

A member of the Management team will ordinarily be on the premises all the time the store is open and person will have responsibility for the premises whilst the premises are open.

c) Public safety

The premises licence holder is fully aware of its responsibilities under a range of health and safety related legislation and has appropriate policies and procedures in place to be confident of complying with the relevant obligations which arise.

d) The prevention of public nuisance

The company has a "good neighbour" policy which seeks to ensure that the premises play an active part in the local community.

e) The protection of children from harm

The premises will operate a Think 25 policy. The checkouts will be programmed to prompt the checkout assistant when an alcohol product is scanned at the till to follow the Think 25 policy.

Colleagues will receive appropriate training both in relation to the underlying law and the Tesco policy, systems and procedures. This training will be documented and repeated as often as Tesco believes to be appropriate.
