This is all very worthy— I'm sure the Coop has good training and good age awareness, but are they going to be able to stop committed drinkers stocking up in the early evening for a binge in the cemetery across the road? This issue has been much less prevalent since the imposition of the Cumulative Impact Order, it would be sad to see that improvement eroded.

Having read these documents, please can you pass on a comment that our concern about the granting of an alcohol licence isn't about under-age alcohol sales. It's about drunken adults buying and consuming alcohol outside and near the Co Op and intimidating, bothering or begging from passers by as already happens outside the Co Op on Hills Rd nearby.

Many thanks
