• Introduction

Aim

The aim of the Neighbourhood profile update is to provide an overview of action taken since the last reporting period, identify ongoing and emerging crime and disorder issues, and provide recommendations for future priorities and activity in order to facilitate effective policing and partnership working in the area.

The document should be used to inform multi-agency neighbourhood panel meetings and neighbourhood policing teams, so that issues can be identified, effectively prioritised and partnership problem solving activity undertaken.

Methodology

This document was produced using the following data sources:

- Crime data and incident data March 2011 – June 2011 and as a comparison data from November 2010 – February 2011 and March 2010 – June 2010
- Information from Neighbourhood Policing Team August 2011.
- Community intelligence.
- Environmental data from Cambridge City Council for the period March 2011 – June 2011, compared with the same period the previous year.

Anti-Social Behaviour

Please note that due to changes in the police incident reporting system we will now be using the ‘Final Call Type’ rather than the ‘Closure Class Definitions’ in the summary tables.

Previous Priorities & Engagement Activity

Previous Priorities

At the neighbourhood panel meeting on 14th April 2011 the following issues were adopted as priorities. The tables below summarise action taken and the current situation regarding the priorities that were set:

Anti-social behaviour (ASB) in Mill Road Cemetery	
Objective	To reduce ASB, drug taking and alcohol abuse in the Mill Road Cemetery, Cambridge.
Action Taken	<p>74 dedicated patrols have been made within the Mill Road cemetery since the agreement of this priority totalling 40 hours and 35 minutes patrol time. The patrols have targeted drug taking, discarded needles, anti-social behaviour, street drinking and any other problems encountered. Patrols have been conducted by both PCs and PCSOs and some have been conducted in plain clothes.</p> <p>Initially, officers worked with 'Street Scene' to clear up discarded needles in the area and worked with the city council to get litterbins cleared and litter collected.</p> <p>Since the agreement of the priority we engaged heavily with the public and street drinkers in this area and adopted a proactive approach using powers under Section 27 of the Violent Crime Reduction Act, which can require anti-social drinkers to leave a specific location.</p> <p>Since the agreement of this priority we have issued 12 Section 27 dispersal notices. We have also removed 18 anti-social people from the cemetery, searched two people for controlled substances, issued one formal warning for cannabis, reported one person for allowing his dog to be off the lead whilst not muzzled and another person for breaching a court order. We also gave a local licensed premise a warning after we established they may have been selling alcohol to drunken persons who then used the cemetery.</p> <p>Early morning and late afternoon/night patrols revealed that numerous rough sleepers use the cemetery for shelter and sleeping within the thick trees and bushes. When found they were engaged with and provided support agency advice.</p>

	<p>A common problem that we encountered were children playing in the cemetery unsupervised. We found this problem was mostly linked to the Cambridge Blue PH as the children would play in the cemetery whilst their parents enjoyed a drink at the weekends. Generally speaking they were not problematic but their sheer numbers sometimes caused concern for locals. The landlord of the Cambridge Blue was engaged with and several children and parents were given words of advice.</p>
Current Situation	<p>Having reviewed my officer's notes since the agreement of this priority it is apparent that there has been a steady decline in anti-social behaviour, street drinking, rough sleepers, needle finds and drug use in the area. This does not mean however that it has gone away, but it has reduced substantially according to quantitative data and officer reports.</p> <p>There have been recent reports of rough sleepers and one needle find however current officer patrols are largely uneventful in comparison to our earlier patrols.</p> <p>Patrols will continue to visit the area and deal with behaviours as required.</p>
Continue or Discharge?	<p>Discharge: It is considered that the issues can be picked up as part of daily policing business.</p>

Misuse of public open spaces	
Objective	To reduce seasonal crime, disorder and anti-social behaviour in the city's green spaces
Action Taken	<p>128 dedicated patrols have been conducted in response to this priority which has totalled approximately 65 hours and 20 minutes patrol time in the identified areas such as Stourbridge Common, Coldhams Common and Coleridge, Vinery and Thorpe Way recreation grounds. The patrols have predominantly targeted anti-social behaviour, street drinking, drug dealing, robbery and environmental issues. Patrols have been by both PCs and PCSOs and have been mainly high visibility on either foot or cycles. Some have been conducted in plain clothes.</p> <p>Generally, officer patrols were largely uneventful and had</p>

	<p>nothing to report although engagement with groups of youths is heavily documented. We encountered:</p> <ul style="list-style-type: none"> - One report of excessive noise and fly tipping on Abbey Walk. - Report of youth ASB on Thorp Way Rec, youths not located in patrols. - A male who was smoking cannabis ran from PCSOs on Stourbridge Common. - Local criminals were searched for drugs on Coleridge Rec although nothing was found. - 2 Polish males were residing in tents on Stourbridge Common, they were reported to the city council who in turn served an eviction notice on them, 2 days later they had moved on. - A stolen cycle was recovered on Coldhams Common. - Over the course of the plan 2 motorcycles were seen driving off road by PCSOs however both made off and the officers were too far away to read the registrations. A Section 59 warning was issued to the rider of an off road motorcycle causing nuisance in Peverel Road. - Alcohol was seized from youths near the Abbey Bowls club and a good quantity of alcohol was seized from a group of approximately 30-40 youths who had gathered on the Coleridge Rec. - A drug user was challenged by officers, some drugs were swallowed however she was found with class A on her person and was arrested.
Current Situation	<p>There has been very low activity on the green spaces since this plan was agreed, the vast majority of officer patrols had nothing to report other than the public enjoying the green spaces as they should. The above represents the majority of incidents encountered. Patrols will continue to be made to open spaces.</p>
Continue or Discharge?	<p>Discharge: It is suggested this can be picked up as part of daily policing business.</p>

Other Activity of Note

- The complex case team obtained a County Court Civil Injunction against two individuals responsible for plenty of anti-social behaviour and harassment in the Abbey ward. In mid July they breached this injunction and were arrested, one of them was sent to prison for 42 days whilst the other received a suspended sentence.

- Information from a local resident assisted with the spontaneous arrest of a street level heroin supplier. He was stopped in Abbey ward with a small amount of heroin and a quantity of cash on his person. Your local NPT'S initial investigation revealed where he had been staying. A search was then conducted of this property which revealed heroin with a street value of approximately £2000 and £3000 cash. The offender has been charged and remanded to prison pending his sentencing.
- A warrant was conducted in the Petersfield ward, which revealed cocaine with a street value of £13,000 and a quantity of cash. Two dangerous offenders, one of which was out of prison on licence for a serious assault, are now behind bars.
- Lots of complaints have been forthcoming within the last 3 months regarding drug dealing and addicts congregating across the neighbourhood waiting for dealers to ply their trade. This has been causing plenty of anti-social behaviour when the dealers took a while to arrive, as the addicts get frustrated. One dealer who we suspected was involved in this operation was targeted at an address in the north of the city. Approximately £1000 was confiscated from him and £2000 heroin and crack cocaine was recovered. Enquiries are ongoing. Another dealer suspected of involvement was stop searched driving his vehicle and found to have a small quantity of heroin concealed within. He was arrested and has been denied the use of his car for the time being. Enquiries are ongoing.
- To improve engagement with young people in the area of Abbey walk, Fairsford Place and York Street, PSCO Hoi Yee Ng and the City Council's ASB Team has set up a football drop in event to run during the school holiday period. The free event, coordinated by the CYPSS team, takes place St. Mathews Gardens on Tuesdays between 12 and 2pm for the next 4 weeks.
- The City Council organised a Thorpe Way Community Day in May in conjunction with Barnwell Baptist Church. Volunteers helped residents to clear out unwanted furniture and tidy up overgrown gardens. Over 30 households were assisted on the day along with another 40 plus households making use of the skips and recycling facilities on the day. A tonne of garden waste, two tonnes of wood, half a tonne of metal, and six tonnes of general rubbish were disposed of.

Council Officers and members of the neighbourhood policing team also spoke to a number of residents about their perceptions of the area and

were able to speak to them about any concerns they had about regarding ASB and community safety.

4 Emerging Issues

Cambridge East Trends

Offence levels across the neighbourhood have increased slightly compared to the previous period but decreased by 16% compared to the same period last year.

ASB incidents across the neighbourhood have increased by 17% compared to the previous period and decreased by 14% compared to the same period last year. .

Abbey Ward

- Total crime in Abbey Ward increased compared to the previous four months (386 vs. 358) but remained stable compared to the same period last year (391).
- Dwelling burglary offences have more than halved compared to the previous period (17 offences vs. 38 offences) and decreased compared to the same period last year (26 offences). Half of the offences occurred overnight but no common MO was seen between these offences.
- There were 19 burglary other offences in this period compared to 24 offences in the previous period and 27 offences in the same period last year. There were three offences at Cambridge Spiritual Church, Newmarket Road during the month of June. In all three offences offenders gained entry to the shed and caused damage.
- Violent crime offences have increased to 93 offences from 67 offences in the previous period and 78 offences in the same period last year. Offenders were arrested and charged in 35 of these offences.
- Theft from vehicle offences have decreased compared to both the previous period (18 offences vs. 30 offences) and the same period last year (26 offences). Common items stolen were index plates, satellite navigation systems and catalytic converters.
- Theft from shop offences have remained stable compared to the previous period (49 offences vs. 52 offences) and the same period last year (51 offences). Offenders were arrested and charged in 32 of these offences. Common locations for offences were Tescos on Cheddars Lane (19) and Boots at Cambridge Retail Park (9).
- ASB levels have increased slightly compared to the previous period (256 incidents vs. 243 incidents) but decreased compared to the same period last year (280). Numerous calls often from the same address reporting ongoing neighbour disputes or noisy neighbours. There were several calls from McDonalds on Newmarket Road regarding youths being rowdy and

disruptive and a few calls from Stourbridge Common concerning youths riding around on a quad bike and throwing stones at the cattle.

Environmental Issues – City Services Data

- Between March and June 2011, there were 10 reports of abandoned vehicles in the ward compared with 10 during the same period the previous year. This included 4 vehicles, which were not on site following inspection and 1, which was subsequently claimed by its owner. 2 additional vehicles are also currently pending further investigation. There were no specific hotspots during either period.
- Between March and June 2011, there were 106 reports of flytipping in the ward compared with 81 during the same period the previous year. Ekin Road (17), Dennis Road (12), Fison Road (11), Helen Close (11) and Anns Road (10) were the main hotspots during the current reporting period. Helen Close (12), Fison Road (9), Ekin Road (7), Dennis Road (6) and Latimer Close (5) were the main hotspots during the previous year.
- Between March and June 2011, 32 derelict cycles were dealt with compared with 36 during the same period the previous year. Fison Road (5), Newmarket Road (5) and Dennis Road (4) were the main hotspots during the current reporting period. Barnwell Road (12), Quinton Close (10) and Coldhams Lane (5) were the main hotspots during the previous year.
- Between March and June 2011, 55 needles were reported compared with 25 during the same period the previous year. 30 were removed from Wadloes Road and 20 were removed from Beche Road. During the previous reporting period 15 needles were removed from Newmarket Road.

Petersfield Ward

- Total crime in Petersfield Ward has increased compared to the previous period (337 offences vs. 310 offences) but decreased compared to the same period last year (417 offences).
- Dwelling burglary offences have decreased compared to the previous period (17 offences vs. 31 offences). No patterns or trends were noted in the offences during this period.
- Violent crime offence levels have decreased slightly compared to the previous period (33 offences vs. 40 offences) and have also shown a decrease compared to the same period last year. In 14 of these offences an offender has been arrested and charged.
- Cycle theft offences have increased compared to the previous period (94 offences vs. 79 offences) but decreased compared to the same period last year (127 offences). Common locations for cycle theft offences were Anglia Ruskin University on East Road, Gwydir Street and Parkside Pools.

- There were 51 thefts from shop offences in this period compared with 45 offences in the previous period and 56 offences in the same period last year. Offenders were arrested and charged in 29 of these offences. Common locations for theft from shop offences were One Stop on Hills Road (22), Asda at the Beehive Centre (14) and TK Maxx at the Beehive Centre (6).
- ASB incidents have increased compared to both the previous period (180 incidents vs. 135 incidents) and compared to the same period last year (163 incidents). Incidents included ongoing disputes between neighbours, youths congregating and being abusive to members of the public and noise complaints about loud music and shouting. Common locations for ASB were Mill Road (25), Staffordshire Street (12), Gwydir Street (12), Norfolk Street (11), Tenison Road (10), Ditchburn Place (9) and St Matthews Gardens (9).

Environmental Issues – City Services Data

- Between March and June 2011, there were 21 reports of abandoned vehicles in the ward compared with 24 during the same period the previous year. This included 10 vehicles, which were not on site following inspection and 1, which was subsequently claimed by its owner. In addition, 6 CLE26 notices were issued to offenders on behalf of the DVLA for not displaying road tax on a public highway, which will result in a fine issued by the DVLA. 3 vehicles were also impounded on behalf of the DVLA for not having valid road tax, 2 of which was subsequently destroyed following non-payment of the DVLA fine. 1 additional vehicle is currently pending further investigation. Cheddars Lane (3) was the hotspot during the current reporting period. Sleaford Street (4), Gwydir Street (3) and Sturton Street (3) were the hotspots for the same period the previous year.
- Between March and June 2011, there were 79 reports of flytipping in the ward compared with 65 during the same period the previous year. There was sufficient evidence to issue 17 formal warning letters to domestic offenders. In addition, 6 verbal warnings were issued and waste transfer documentation was requested from 3 trade offenders. Mill Road (10), St Matthews Street (10), Stone Street (5), Tenison Road (5), Kingston Street (4) and Mawson Road (4) were the main hotspots during the current reporting period. The offences at St Matthews Street, Mill Road, Mawson Road and Tenison Road accounted for 14 of the formal warning letters being sent. Mill Road (12), St Matthews Street (9), Covent Garden (8), Tenison Road (6), Staffordshire Street (3) and Devonshire Road (3) were the main hotspots during the previous year.
- Between March and June 2011, 22 derelict cycles were dealt with compared with 46 during the same period the previous year. Gwydir Street (3), Kingston Street (3) and Mill Road (3) were the main hotspots during the current reporting period. Mill Road (9), Ditchburn Place (6),

Ainsworth Street (5) and St Matthews Street (3) were the main hotspots during the previous year.

- Between March and June 2011, 309 needles were reported compared with 675 during the same period the previous year. 200 were removed from East Road Garages along with 50 from Mill Road Cemetery, 21 outside Parkside swimming pool and 19 at Petersfield. During the previous reporting period 562 needles were removed from Mill Road Cemetery, 47 from Petersfield, 23 from Sturton Street, 20 from St Matthews Street and 17 were in the toilets at Mill Road.

Romsey Ward

- Total crime in Romsey Ward has increased compared to the preceding period (236 vs. 213) but decreased compared to the same period last year (264).
- There were 10 burglary other offences in this period compared to 15 offences in the previous period and 8 offences in the same period as last year. Two offences occurred at the same location on Coldhams Lane less than a fortnight apart; copper was stolen in both offences.
- Violent crime offences have remained stable compared to the previous period (37 offences in each period) and compared to the same period last year (41 offences). Four of these offences occurred at the same pub on Thoday Street and concerned the same incident in which a fight between a large group of males took place.
- Theft from vehicle offences have increased from 9 offences in the previous period to 16 offences in this period. Offence levels have remained stable compared to the same period last year when there were 17 offences. Most common were theft of number plate offences or offences in which entry was gained via a smashed window and items such as satellite navigation systems, handbags and mobile phones were stolen.
- Cycle theft offences have remained stable compared to both the previous period and the same period last year (45 offences in each of the three periods). Common locations for cycle theft offences were Cromwell Road, Coldhams Lane and Mill Road.
- There were 25 theft from shop offences in this period compared to 16 offences in the previous period and 23 offences in the same period last year. Common locations for theft from shop offences were Sainsburys on Coldhams Lane and the Co-Op on Mill Road. Offender were arrested and charged in ten of these offences.
- Criminal damage offences have increased compared to the previous period (22 offences vs. 31 offences) but decreased compared to the same period last year (39 offences). Nineteen of these offences were criminal damage to a vehicle with vehicles having their tyres slashed, their windscreens smashed, paintwork scratched and wing mirrors snapped off.

- ASB levels have increased compared to the previous period (187 incidents vs. 141 incidents) but decreased compared to the same period last year (196 incidents). Thirty-six of these incidents occurred at the same address and concern a male complaining about his neighbours. Locations with high levels of ASB were Mill Road (50), Coldhams Lane (9), and Romsey Road (8).

Environmental Issues – City Services Data

- Between March and June 2011, there were 23 reports of abandoned vehicles in the ward compared with 10 during the same period the previous year. This included 3 vehicles, which were not on site following inspection and 2, which were subsequently claimed by their owners. In addition, 8 CLE26 notices were issued to offenders on behalf of the DVLA for not displaying road tax on a public highway, which will result in a fine issued by the DVLA. 2 vehicles were also impounded on behalf of the DVLA for not having valid road tax, both of which were subsequently destroyed following non-payment of the DVLA fine. 3 additional vehicles are also currently pending further investigation. Cavendish Road (3), Hope Street (3) and St Philips Road (3) were hotspots during the current reporting period. There were no specific hotspots during the same period the previous year.
- Between March and June, there were 47 reports of flytipping in the ward compared with 32 during the same period the previous year. There was sufficient evidence to issue 5 formal warning letters to domestic offenders. Waste transfer documentation was requested from 2 trade offenders. Mill Road (5), Coldhams Lane (4), Hope Street (4), Ross Street (4) and Wycliffe Road (4) were the main hotspots during the current reporting period. The offences at Hope Street accounted for 4 of the formal warning letters being sent. Brooks Road (7) and Mill Road (4) were the main hotspots during the previous year.
- Between March and June 2011, 13 derelict cycles were dealt with compared with 15 during the same period the previous year. Mill Road (4) was the hotspot during the current reporting period. Catherine Street (3) and Mill Road (5) were the main hotspots during the previous year.
- Between March and June 2011, 25 needles were reported compared with 332 during the same period the previous year. 12 were removed from Cromwell Street, 6 removed from Montreal Square and 4 from Coldhams Lane. During the previous reporting period 320 needles were removed from Brookfields Hospital car park at Mill Road and 5 from St Peters Church Yard on Thoday Street.

Coleridge Ward

- Total crime in Coleridge Ward has decreased compared to both the previous period (158 offences vs. 225 offences) and compared to the same period last year (257 offences).
- Dwelling burglary offences have decreased by almost two thirds compared to the previous period (99 offences vs. 26 offences) and almost halved compared to the same period last year (17 offences). In three of the offences during this period and offender has been arrested and charged.
- Violent crime offences have decreased compared to both the previous period (29 offences vs. 46 offences) and compared to the same period last year (61 offences). Offenders were arrested and charged in 13 of these offences. Common locations for violent crime were Coleridge Road (5) and Cambridge Leisure Park (4).
- There were 16 theft from vehicle offences in this period compared to 14 offences in the previous period and 6 offences in the same period last year. Four offences occurred on Cherry Hinton Road, with three of these occurring at a commercial premises. All three offences occurred overnight but on different dates during the period; catalytic converters were stolen in two offences whilst diesel was stolen in the third offence.
- Cycle theft offences have decreased from 45 offences in the previous period to 27 offences in this period. This is also a decrease compared to the same period last year (47 offences).
- ASB incident levels have increased slightly compared to the previous period (132 incidents vs. 125 incidents) and have also increased compared to the same period last year (234 incidents). Common locations for ASB were Cherry Hinton Road (17), Ashbury Close (9), Radegund Road (8), Birdwood Road (7) and Cambridge Leisure Park (7).

Environmental Issues – City Services Data

- Between March and June 2011, there were 11 reports of abandoned vehicles in the ward compared with 10 during the same period the previous year. This included 3 vehicles, which were not on site following inspection and 1, which was subsequently claimed by its owner. In addition, 1 CLE26 notice was issued to the offender on behalf of the DVLA for not displaying road tax on a public highway, which will result in a fine issued by the DVLA. 3 vehicles were also impounded on behalf of the DVLA for not having valid road tax, 2 of which was subsequently destroyed following non-payment of the DVLA fine. 3 additional vehicles are also currently pending further investigation. Rustat Road (3) was the hotspot during the current reporting period. There were no specific hotspots during the previous year.
- Between March and June 2011, there were 17 reports of flytipping in the ward compared with 41 during the same period the previous year. There was sufficient evidence to issue 2 formal warning letters to domestic

offenders. In addition, 1 verbal warning was issued. Perne Road (3) was the hotspot during the current reporting period. The offences at Perne Road accounted for 1 of the formal warning letters being sent. Hobart Road (6), Rustat Road (5), Golding Road (4) and Fanshaw Road (3) were the main hotspots during the previous year.

- Between March and June 2011, 3 derelict cycles were dealt with compared with 22 during the same period the previous year. There were no specific hotspots during the current reporting period. Cherry Hinton (6) and Lilac Court (4) were the main hotspots during the previous year.
- Between March and June 2011, 5 needles were reported compared with 15 during the same period the previous year. 5 were removed from Davy Road. During the previous reporting period 6 needles were removed from Coleridge Rec. and 4 needles were removed from Catharine Street.

ASB Incident Types in the City East Area Neighbourhood, by Ward

Please Note

Incident levels for each of the wards may not be consistent with the official figures that will be published by the Force and Home Office. This is because the data system used to draw the level of detail needed for the ASB type breakdown for this report may not contain precise locations due to the way incidents are reported e.g. ASB reported where ward boundaries lie could initially be recorded in the neighbouring ward but subsequently corrected.

The figures should only be used as a guide and not regarded as official statistics for publication.

			Abandoned Vehicle Not Stolen	Begging/Vagrancy	Domestic in Progress	Malicious/Nuisance Communication	Neighbour Dispute	Noise – All Types	Road Related	Rowdy/Nuisance Incident	Street Drinking	Vehicle Related Nuisance

5. Recommendations

The following Neighbourhood Priorities are recommended for consideration:

To be agreed at the meeting.
