

Local Code of Corporate Governance

Good governance

Good governance is about how the Council ensures that it is doing the right things, in the right way, for the communities it serves, in a timely, inclusive, open, honest and accountable manner.

A Council's Code of Corporate Governance is:

"The system by which local authorities direct and control their functions and relate to their communities"

Our commitment

Cambridge City Council is committed to upholding the highest possible standards of good corporate governance, believing that good governance leads to high standards of management, strong performance, effective use of resources, increased public involvement and trust in the Council and ultimately good outcomes.

Good governance flows from shared values, culture and behaviour and from systems and structures. This Code of Corporate Governance is a public statement that sets out the framework through which the Council meets its commitment to good corporate governance.

The Governance Framework comprises the systems and processes, and cultures and values, by which the Council is directed and controlled and through which it accounts to, engages with and, where appropriate, leads the community. It enables the Council to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate cost-effective services.

This local code of governance has been developed in accordance with and is consistent with the Delivering Good Governance in Local Government framework, which builds on the seven Principles for the Conduct of Individuals in Public Life.

Core principles of good governance

The core governance principles of the council are:-

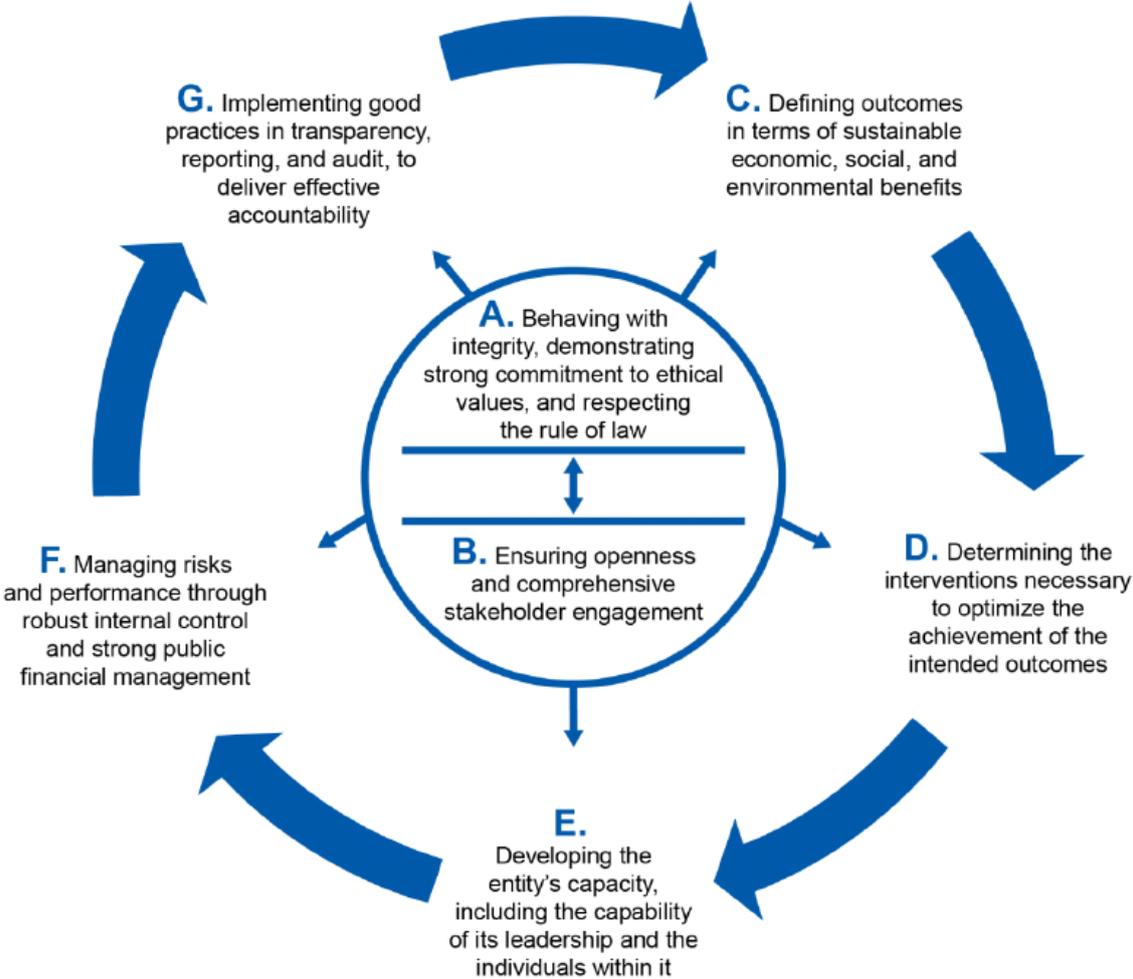

- A. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.
- B. Ensuring openness and comprehensive stakeholder engagement.
- C. Defining outcomes in terms of sustainable economic, social, and environmental benefits.
- D. Determining the interventions necessary to optimize the achievement of the intended outcomes.
- E. Developing the entity's capacity, including the capability of its leadership and the individuals within it.
- F. Managing risks and performance through robust internal control and strong public financial management.
- G. Implementing good practices in transparency, reporting, and audit, to deliver effective accountability.

The Council first adopted a Code of Corporate Governance in 2002. It has been reviewed annually since then.

Applying the core principles of good governance

This document describes how the Council achieves the seven principles of good governance and describes how the Council’s corporate governance arrangements will be monitored and reviewed.

**Achieving the Intended Outcomes
While Acting in the Public Interest at all Times**

This Code takes each of the principles of good governance in turn and sets out the systems, processes and principles the Council has put in place to ensure good corporate governance.

The Code will be reviewed annually through the Annual Governance Statement process, which will identify the actions to be taken to enhance the code or address any limitations with in it.

The Council seeks to ensure all partnerships with which it is engaged have a set of values or criteria against which decision-making and actions can be judged. It works with those partnerships to promote open and accountable decision making and to ensure they have clear governance structures in place.

It also ensures that there is clarity about the legal status of each partnership and that all representatives in the partnership have clarity about their powers to bind their own organisation to partnership decisions.

The Council operates in accordance with principles of partnership working agreed with our key partner organisations.

The Council ensures that the authority as a whole is open and accessible to the community, service users and its staff.

It promotes the role of Councillors and makes the public know who the Councillors are, what roles they have on the Council and how to contact them.

It treats everyone fairly and strives to treat all as rational people able to make up their own minds.

It also strives to provide services on the basis of need rather than ability to pay.

The Council makes clear through its website and other Council publications the services that it is responsible for, how people can contact the Council and the service standards they can expect.

The Council's consultation programme ensures that the Council proactively seeks the views of a wide range of people and engages with all sections of the community effectively.

This is achieved through a mix of corporate consultation initiatives with more targeted consultation on service specific issues led by relevant departments.

The Council seeks to ensure all views are actively considered when making decisions, recognising that it is not always possible to reconcile conflicting viewpoints.

The Council ensures it makes feedback available to consultees on the outcomes of consultation, what has changed as a result and explaining why it has made the decisions it has.

Monitoring and reporting

The Council will undertake an annual review of its governance arrangements to ensure continuing compliance with best practice to provide assurance that corporate governance arrangements are adequate and operating effectively in practice. Where reviews of the corporate governance arrangements have revealed gaps, actions will be planned to enhance the governance arrangements accordingly.

The Council will prepare an Annual Governance Statement which will be submitted to the Civic Affairs Committee for consideration and will form part of the Council's annual Statement of Accounts.

The Governance Statement will include:

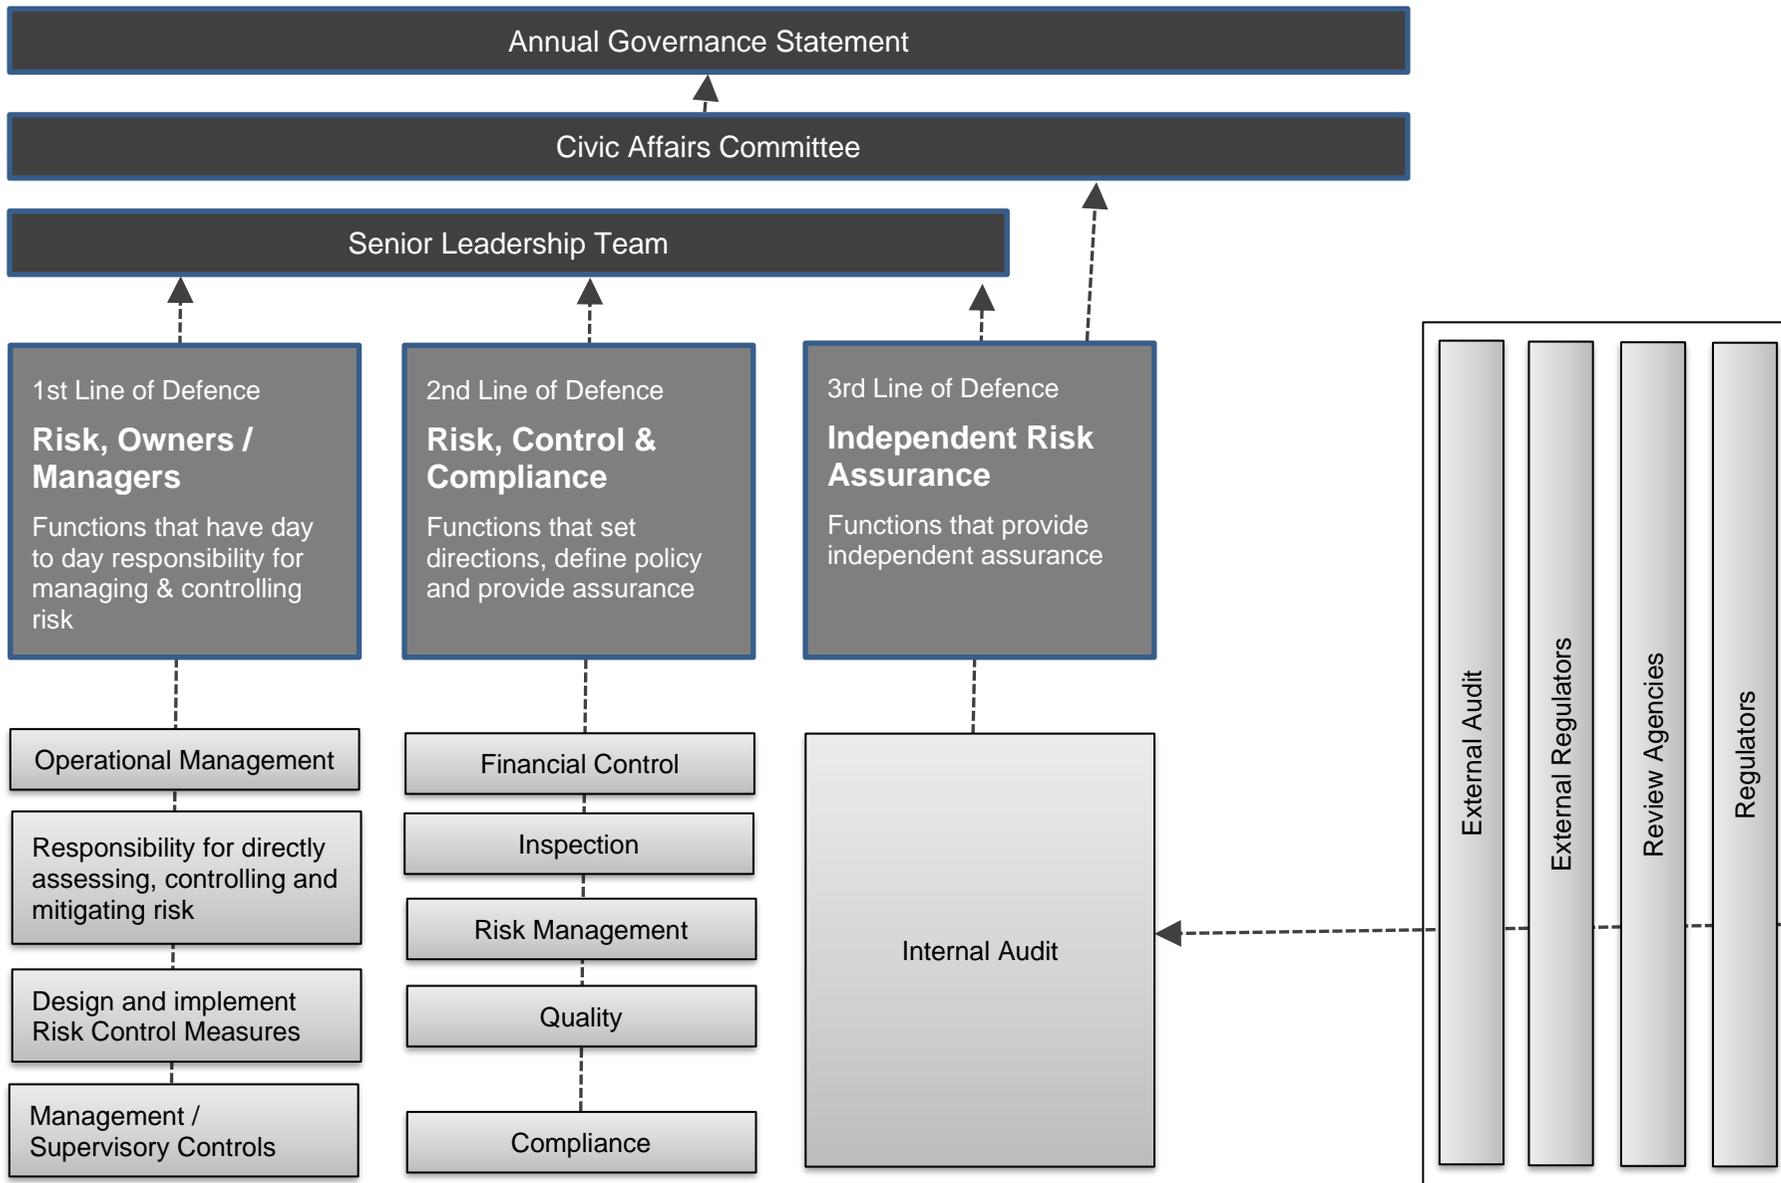

- an acknowledgement of responsibility for ensuring there is a sound system of governance (incorporating the system of internal control) and reference to the authority's code of governance;
- a reference to and assessment of the effectiveness of key elements of the governance framework and the role of those responsible for the development and maintenance of the governance environment;
- an opinion on the level of assurance that the governance arrangements can provide and that the arrangements continue to be regarded as fit for purpose in accordance with the governance framework;
- a reference to how issues raised in the previous year's annual governance statement have been resolved; and
- a conclusion including a commitment to monitoring implementation as part of the next annual review.

In reviewing and approving the Annual Governance Statement, members will be provided with detailed information regarding the effectiveness of the governance arrangements and system of internal control and how these address the key risks faced by the Council. Those Assurances will be available from a wide range of sources, including internal and external audit, a range of external inspectorates and managers from across the Council.

The Council will continually strive to operate an assurance framework, embedded into its business processes, that maps corporate objectives to risks, controls and assurances. This framework and regular reports on its application and effectiveness will provide members with assurances to support the Annual Governance Statement and will help members to identify whether corporate objectives and significant business risks are being properly managed.

Our assurance channels

The review of effectiveness is informed from various sources (also known as the Lines of Defense):

Seven principles for the conduct of individuals in public life

The governance framework is supported by the seven Principles of Public Life, which set the standards of conduct and behaviour to which Councillors and employees should aspire in their day-to-day dealings.

1. Selflessness	Holders of public office should act solely in terms of the public interest. They should not do so in order to gain financial or other benefits for themselves, their family or their friends.
2. Integrity	Holders of public office should not place themselves under any financial or other obligation to outside individuals or organisations that might seek to influence them in the performance of their official duties.
3. Objectivity	In carrying out public business, including making public appointments, awarding contracts, or recommending individuals for rewards and benefits, holders of public office should make choices on merit.
4. Accountability	Holders of public office are accountable to the public for their decisions and actions and must submit themselves to whatever scrutiny is appropriate to their office
5. Openness	Holders of public office should be as open as possible about all the decisions and actions that they take. They should give reasons for their decisions and restrict information only when the wider public interest clearly demands.
6. Honesty	Holders of public office have a duty to declare any private interests relating to their public duties and to take steps to resolve any conflicts arising in a way that protects the public interest.
7. Leadership	Holders of public office should promote and support these principles by leadership and example.
