

1. IMPACT ON CARBON EMISSIONS (MITIGATION OF CLIMATE CHANGE)							
HOW WILL THIS PROJECT/PROPOSAL AFFECT THE FOLLOWING KEY AREAS:	WHAT IS THE IMPACT CONSIDERED TO BE? <i>See guidance in the purple box, below, to help you assess the degree of the negative and positive impacts e.g. High, Medium or Low</i>	CLIMATE CHANGE RATING: <i>Use drop down list</i>	WILL THE PROJECT MOVE CAMBRIDGE CITY COUNCIL CLOSER TO THE OBJECTIVE OF BEING NET ZERO CARBON BY 2030? <i>Use drop down list</i>	WILL THE PROJECT MOVE THE CITY CLOSER TO THE OBJECTIVE OF A NET ZERO CARBON CAMBRIDGE BY 2030? <i>Use drop down list</i>	PLEASE DETAIL HERE THE ACTION THAT WILL BE TAKEN TO AVOID, MITIGATE OR COMPENSATE FOR THE NEGATIVE IMPACTS AND MAXIMISE POSITIVE IMPACTS?	HAS A NET ZERO CARBON OPTION BEEN CONSIDERED? PLEASE PROVIDE DETAILS.	
1 ENERGY USE	Positive Impact: Energy use will be reduced or renewable energy will be used Nil Impact: No extra energy use is involved Negative Impact: More energy (gas and/ or electricity) will be consumed (by CCC or others)	Nil	No	No	Consider: - Reducing demand for energy - Specifying energy efficiency measures (e.g. insulation, low energy lighting) - Generating renewable energy (e.g. heat pumps, solar photovoltaic panels)		
2 WASTE GENERATION	Positive Impact: Less waste will be generated OR amount of waste that is reused/ recycled will be increased Nil Impact: No waste will be generated Negative Impact: More waste will be generated (by CCC or others)	Nil	No	No	Consider: - Will resources be reduced or reused? - Will you use recycled goods? - Will recycling facilities be increased?		
3 USE OF TRANSPORT	Positive Impact: The use of transport and/or of fossil fuel-based transport will be reduced Nil Impact: No extra transport will be necessary Negative Impact: CCC or others will need to travel more OR transport goods more often/ further	Nil	No	No	Consider: - Will you purchase an electric vehicle? - Will you specify the use of public transport? - How will you reduce the need to travel or transport		
4 SUSTAINABLE FOOD	Positive Impact: Food will be locally grown and/ or meat-free Nil Impact: No change in supply of food Negative Impact: Food will travel long distances and include meat	Nil	No	No	Consider: - Use of locally grown/ produced food - Reducing use of imported food - Reducing use of meat		
2. IMPACT ON RESILIENCE (ADAPTATION) TO THE EFFECTS OF CLIMATE CHANGE							
HOW WILL THIS PROJECT/PROPOSAL AFFECT THE FOLLOWING KEY AREAS:	WHAT IS THE IMPACT CONSIDERED TO BE? <i>See guidance in the purple box, below, to help you assess the degree of the negative and positive impacts e.g. High, Medium or Low</i>	CLIMATE CHANGE RATING: <i>Use drop down list</i>	WILL THE PROJECT HELP CAMBRIDGE CITY COUNCIL TO BE MORE RESILIENT TO THE IMPACTS OF CLIMATE CHANGE? <i>Use drop down list</i>	WILL THE PROJECT HELP CAMBRIDGE TO BE MORE RESILIENT TO THE IMPACTS OF CLIMATE CHANGE? <i>Use drop down list</i>	PLEASE DETAIL HERE THE ACTION THAT WILL BE TAKEN TO AVOID, MITIGATE OR COMPENSATE FOR THE NEGATIVE IMPACTS AND MAXIMISE POSITIVE IMPACTS?	HAS A NET ZERO CARBON OPTION BEEN CONSIDERED? PLEASE PROVIDE DETAILS.	
5 HEATWAVES	Positive Impact: Increased/ improved shade & natural ventilation Nil Impact: No impact on existing levels of shade & ventilation Negative Impact: Lack of or reduced shade (e.g. from trees or buildings) & natural ventilation	Nil	No	No	Consider: Building orientation and installing measures such as Brise Soleil to reduce heat gain and plant hydration methods.		
6 WATER AVAILABILITY	Positive Impact: Provision made for an enhancement of water efficiency measures to minimise the impact on water resource availability Nil Impact: Levels of water use will not be changed Negative Impact: Water use will increase and/or no provision made for water management = Negative Impact	Nil	No	No	Consider: Managing water use efficiently, installing measures to use less water such as low water use taps, planting drought resistant plants and using rainwater for irrigation.		
7 FLOODING	Positive Impact: Sustainable drainage measures incorporated, positive steps to reduce & manage flood risk Nil Impact: Levels of surface water run-off & flood risk are not affected Negative Impact: Levels of surface water run-off will increase, no management of flood risk	Nil	No	No	Consider: The installation of measures to reduce the speed and increase the absorption of rainwater e.g. green roofs, SuDS, permeable paving etc. and alternative arrangements (business continuity)		
8 HIGH WINDS / STORMS	Positive Impact: Exposure to higher wind speeds is being actively managed & reduced Nil Impact: No change to existing level of exposure to higher wind speeds Negative Impact: Exposure to higher wind speeds is increased or is not managed = Negative Impact	Nil	No	No	Consider: the need to install stabilisation measures and ensure robust structures resilient to high winds		
9 FOOD SECURITY	Positive Impact: Opportunities & resources for local food production are increased/ enhanced Nil Impact: No change to opportunities & resources for local food production Negative Impact: Opportunities & resources for local food production are reduced	Nil	No	No	Source food locally, and provide meat-free catering to reduce vulnerability to food shortages and reduce emissions from transport and farming of food		
10 BIODIVERSITY	Positive Impact: Biodiversity will be protected/ enhanced Nil Impact: Level of biodiversity will not change Negative Impact: Biodiversity will not decrease	Nil	No	No	Provide net gain mitigation if required and seek enhancement in projects of all types and scale		
Weighing up the negative and positive impacts of your project, what is the overall rating you are assigning to your project?:		Nil	<i>This overall rating is what you need to include in your report/ budget proposal, together with your explanation to be included in the red box below</i>				

Guidance on Assessing the Degree of Negative and Positive Impacts:	
<i>Note: Not all of the considerations/ criteria listed below will necessarily be relevant to your project</i>	
Low Impact (L)	* No publicity * Relevant risks to the Council or community are Low or none * No impact on service or corporate performance * No capital assets; or capital assets with lifetime of less than 3 years
Medium Impact (M)	* Local publicity (good or bad) * Relevant risks to the Council or community are Medium * Affects delivery of corporate commitments * Affects service performance (e.g.: energy use; amount of waste; distance travelled) by more than 10% * Capital assets with a lifetime of more than 3 years
High Impact (H)	* National publicity (good or bad) * Relevant risks to the Council or community are Significant or High * Affects delivery of regulatory commitments * Affects corporate performance by more than 10% * Capital assets with a lifetime of more than 6 years

In the box below please summarise the projects impacts (the reasons for the ratings given in column E above) to explain how the overall rating for the project/ proposal has been derived (Cell E37). Please also highlight any negative impacts your project may have and how you plan to avoid, mitigate or compensate for these (as you will have detailed in column I above).

The project is to dissolve Storey's Field Community Trust and to extend the city councils contract for services to operate Storey's Field Community Centre until 31.03.25. On dissolution of the Trust, Cambridge University will take sole responsibility for management and oversight of operation of the centre. There are city council employed posts and a TUPE transfer arrangement may apply when the council's contract for services ends. There is no change to the service contract specification during the extension period. There will therefore be a nil impact from both the contract extension and the governance changes being implemented.
