## Affordable housing policy

### Affordable housing permissions in South Cambridgeshire as a percentage of all eligible permissions

<b>Period</b>	<b>Affordable dwellings permitted as a % of all dwellings completed on sites where policy HG/3 is applicable</b>
<b>2011 – 2012</b>	40%
<b>2012 – 2013</b>	39%
<b>2013 – 2014</b>	37%
<b>2014 – 2015</b>	23%
<b>2015 – 2016</b>	38%
<b>2016 – 2017</b>	41%

Table 16a – Affordable housing permissions in South Cambridgeshire as a percentage of all eligible permissions where Policy HG/3 of the Development Control Policies DPD (2007) was applicable

Source: Research & Monitoring - Cambridgeshire County Council

<b>Period</b>	<b>Affordable dwellings permitted as a % of all dwellings permitted on sites where the affordable housing policy of Local Plan is applicable (Policy H/10)</b>
<b>2017 – 2018</b>	33%
<b>2018 – 2019</b>	33%
<b>2019 – 2020</b>	32%
<b>2020 – 2021</b>	29%
<b>2021 – 2022</b>	40%
<b>2022 – 2023</b>	22%
<b>2023 – 2024</b>	36%

Table 15b17 – Affordable housing permissions in South Cambridgeshire as a percentage of all eligible permissions in accordance with the South Cambridgeshire Local Plan (2018) Policy H/10

Source: Research & Monitoring - Cambridgeshire County Council

Note: for (a) the data includes planning permissions where Policy HG/3 of the Development Control Policies DPD (2007) applied and where the target was to achieve a 40% affordable housing contribution either onsite or offsite through a commuted sum contribution.

For (b) the data includes planning permissions where Policy H/9 of the submission version and H/10 of the adopted version (post 28 September 2018) of the South Cambridgeshire Local Plan applies and where the target is to achieve a 40% affordable housing contribution either onsite or offsite through a commuted sum contribution.

In September 2018 Policy H/10 was adopted as part of the South Cambridge Local Plan (2018). In November 2018 Members agreed to require affordable housing on sites of 10 or more dwellings, in line with the National Planning Policy Framework (NPPF) rather than 11 or more dwellings as set out in the submission version of Policy H/9 and adopted version of Policy H/10. The data included for 2018-2019 therefore uses two different thresholds: 11+ dwelling permitted between 1 April 2018 and 13 November 2018, and 10+ from 14 November 2018-31 March 2019.

## Affordable housing permissions in Cambridge as a percentage of all eligible permissions

Period	Affordable dwellings permitted as a % of all dwellings permitted on sites where the affordable housing policy of Local Plan is applicable (Policy H/10)
2018 – 2019	54%
2019 – 2020	37%

Table 18a – Affordable housing permissions in Cambridge as a percentage of all eligible permissions in accordance with the Cambridge Local Plan (2018) Policy 45  
Source: Research & Monitoring - Cambridgeshire County Council

Period	Affordable dwellings permitted as a % of all dwellings permitted on sites of 10/11-14 dwellings where the affordable housing policy of Local Plan is applicable (Policy 45)	Affordable dwellings permitted as a % of all dwellings permitted on sites of 15+ dwellings where the affordable housing policy of Local Plan is applicable (Policy 45)
2020 – 2021	23%	47%
2021 – 2022	n/a	41%
2022 – 2023	100%	45%
2023 – 2024	n/a	25%

Table 19b – Affordable housing permissions in Cambridge as a percentage of all eligible permissions in accordance with the Cambridge Local Plan (2018) Policy 45  
Source: Research & Monitoring - Cambridgeshire County Council

Note: for (a) the data includes planning permissions for all sites within both the 11(10)-14 and 15+ thresholds.

For (b) the data includes planning permissions presented separately for the 11(10)-14 and 15+ thresholds.

Policy 45 of the Cambridge Local Plan (2018) requires the provision of affordable housing on schemes for 11 units or more, or on developments of less than 11 units if the total floorspace exceeds 1,000 square meters. However, similar to South Cambridgeshire, a lower threshold of 10 dwellings in line with the NPPF was agreed by members at their November 2018 Planning Committee. The Cambridge Local Plan has two thresholds with 25% affordable housing required on developments of 11(10)-14 units and 40% affordable housing required on sites of 15 or more units.

\* Cambridge figures exclude business land lost on land allocated for alternative uses as this has been accounted for, see final section of Policy 41

Note:

2013-2014 in Cambridge includes: change of use of Compass House to educational use (3.48 hectares, 13/0992/FUL) which was in accordance with policy at the time of consideration of planning application.

2015-2016 in Cambridge includes: conversion of Castle Court to student accommodation via prior approval (0.582 hectares, C/01703/15), and change of use of Elizabeth House to education use and student rooms (1.908 hectares, 13/1305/FUL, principle of change of use established through earlier permission approved in December 2012).

2011-2012 in South Cambridgeshire includes: demolition of SCA Packaging (2.4 hectares, S/2530/11) which was vacant and marketing had deemed the use of the site for other purposes acceptable (proposal for residential development on the site completed), and prior notification for demolition of Syngenta building (1.5 hectares, S/1867/11) as office building no longer economically viable.

2013-2014 in South Cambridgeshire includes: demolition of Monsanto buildings to enable Trumpington Meadows (0.76 hectares) and prior notification of demolition of former concrete products factory in Sawston (2.65 hectares, S/2646/13/PD) which was redundant.

2019-2020 in South Cambridgeshire includes: Prior Notification for Demolition of Printworks, Garages, Houses and Remediation of Soils on land between Church Lane and Ermine Street South, Papworth Everard (2.13 hectares) (S/2417/16/PN).

2020-2021 in South Cambridgeshire includes: demolition of existing industrial and office units and 5 dwellings and the erection of up to 90 dwellings together with all associated works at Green End Industrial Estate, Gamlingay (2.69 hectares) (S/4085/19/RM).

2023-2024 in South Cambridgeshire includes: demolition of buildings and construction of 7 dwelling houses at Network House, St Neots Road, Caldecote (0.78 hectares, 23/02279/PRIOR) and demolition of existing dwelling and structures and the change of use of the existing commercial yard for the erection of 9 dwellinghouses at 73 The Lamb Yard, High Street, West Wrattling (0.72 hectares, 22/04689/FUL).

## The claimant count in Cambridge

Month/Year	Claimant count	Claimants as a % of residents aged 16-64
March 2010	1,905	2.2
March 2011	1,725	1.9
March 2012	1,830	2.1
March 2013	1,660	1.9
March 2014	1,150	1.3
March 2015	780	0.9
March 2016	755	0.9
March 2017	750	0.8
March 2018	765	0.9
March 2019	1,000	1.2
March 2020	1,425	1.6
March 2021	3,560	3.3
March 2022	2,145	2.0
March 2023	2,075	1.9
March 2024	2,135	2.0
September 2024	2,365	2.2

Table 61 – The claimant count in Cambridge  
Source: The claimant count, ONS (via NOMIS)

Note: the claimant count includes the number of people claiming Jobseeker's Allowance plus those who claim Universal Credit and are required to seek work and be available for work and replaces the number of people claiming Jobseeker's Allowance as the headline indicator of the number of people claiming benefits principally for the reason of being unemployed.

Although beyond the timeframe of this AMR, data has been included for September which is the latest period at the point the data was compiled.

## The claimant count in South Cambridgeshire

Month/Year	Claimant count	Claimants as a % of residents aged 16-64
March 2010	1,515	1.6
March 2011	1,300	1.4
March 2012	1,380	1.5

## Business demography

### Births and deaths of active enterprises in South Cambridgeshire

Period	Enterprise births	Enterprise deaths	Active enterprises
2016	890	700	8,230
2017	880	820	8,335
2018	1,020	755	8,595
2019	1,015	835	8,805
2020	755	855	8,660
2021	890	840	8,670
2022	685	960	8,505
2023	760	720	8,250

Table 65a – Births and deaths of active enterprises in South Cambridgeshire  
Source: Business Demography, UK (ONS)

### Births and deaths of active enterprises in Cambridge

Period	Enterprise births	Enterprise deaths	Active enterprises
2016	695	520	5,370
2017	585	530	5,380
2018	545	485	5,335
2019	615	495	5,380
2020	595	470	5,415
2021	570	470	5,415
2022	560	545	5,430
2023	540	475	5,320

Table 65b – Births and deaths of active enterprises in Cambridge  
Source: Business Demography, UK (ONS)

Note: the 2021 data release made substantial revisions back to 2016. Therefore, previous years have not been included to avoid discontinuities. The change in the number of active enterprises in one year does not equal the difference between births and deaths in the previous year because businesses can still be active in the year they start or close.

For further details of this dataset see the [ONS website](#).

## Climate change data

### Water consumption per head per day

**Water consumption (litres) per head per day in areas covered by Cambridge Water**

2016 – 2017	0	0	0	0
2017 – 2018	1*	0	1**	0
2018 – 2019	0	0	0	0
2019 – 2020	1#	1§	0	0
2020 – 2021	0	0	0	0
2021 – 2022	1†	1‡	0	0
2022 – 2023	0	0	0	0
2023 – 2024	0	0	0	0

Table 71 – Number of planning permissions granted contrary to the advice of the Environment Agency on either flood risk or water quality grounds.

Source: Environment Agency (2024)

Note: The data has been revised from previous years after reviewing the new data release from the Environment Agency. The Environment Agency has stated that the data may not be exhaustive because they were logging 65 – 70% of planning decisions nationally between 2011- 2016, which often resulted in only partially completed datasets for each local authority area.

\* The Delegation Report for S/0168/17/FL highlights that the sequential test approach was not applicable to the development given the unique heritage considerations for the proposal. However, the exception test was applied. Officers considered that the proposal could demonstrate that wider community benefits would be delivered through the restoration of a listed building, thus passing the first requirement of the exception test. Officers also considered that sufficient means of making the development safe throughout its lifetime could be demonstrated, whilst the flooding risk that the development would cause elsewhere were marginal. Therefore, given the consideration of the planning balance, officers determined the planning application against the Environment Agency's recommendation.

\*\* Planning application 16/0617 was initially objected to by the Environment Agency. However, the Environment Agency noted that they would remove their objection if a Flood Risk Assessment (FRA) was submitted by the applicant. The applicant submitted a FRA, but there is no record of the Environment Agency providing further comments on the FRA or removing their objection. The FRA was deemed acceptable by the Council's officers, and planning permission was granted, subject to planning conditions requiring conformity to the submitted FRA.

# Planning application S/2082/19 is listed incorrectly by the Environment Agency as being permitted by the Council against their advice. However, the Agency submitted a letter to the Council stating that they would withdraw their objection if conditions were attached. The Council applied conditions to the permission in accordance with the Environment Agency's advice and this should have led to the withdrawal of the objection.

§ Planning application S/2844/14 was initially objected to by the Environment Agency and refused by South Cambridgeshire Council who followed their advice. However, the proposed development was allowed at appeal in 2019.

† Planning application 21/00117/HFUL has been listed incorrectly by the Environment Agency. The list states that the planning application was permitted by the Council against the Environment Agency's advice. However, there is no available record of the Environment Agency having made comments in relation to this planning application – this was highlighted by the Delegation Report for the planning application.

‡ The Delegation Report for 21/01111/FUL states that whilst the Environment Agency raised an objection relating to foul water drainage, the Council considered that the proposed water storage tank would not involve the discharge of foul water. Given the nature of the proposal, the Council stated that the proposal would produce clean water that would not present a risk to the surrounding landscape and Riddy Brook and therefore permitted the application.

## Air Quality

Annual average concentration of Nitrogen Dioxide (one-millionth of a gram per cubic metre) (at monitoring points)

### South Cambridgeshire\*

Period	Bar Hill	Impington	Orchard Park School	Girton	Northstowe <sup>†</sup>	Harston <sup>†</sup>

Table 74 – Annual number of days when PM10 levels exceeded a daily mean of 50 (one-millionth of a gram per cubic metre) in South Cambridgeshire

Source: South Cambridgeshire District Council's Air Quality Annual Status Report (2024)

Notes:

\* The annual objective is to have no more than 35 days when PM10 levels exceed a daily mean of 50 (one-millionth of a gram per cubic metre).

† The Air Quality Report states that if the period of valid data is less than 85%, a number is provided in a bracket. This number signifies the 90th percentile of the daily average for this pollutant and not the number of exceedances over the relevant threshold.

Table 91 – City Wildlife Sites (CiWS) within Cambridge

Source: Cambridgeshire and Peterborough Environmental Records Centre (CPERC) Annual Monitoring Report supporting information (2024).

### Notes:

There are no full CiWSs in South Cambridgeshire as CiWSs are designations for the city. However, there are instances where the boundary of a CiWS will extend beyond Cambridge City's district boundary and into South Cambridgeshire.

\* Increase in the 2023-24 figures due to the designation of the Hobson's Park CiWS (47.91ha, of which 47.27ha is within Cambridge City and 0.64ha is within South Cambridgeshire).

## Local Geological Sites (LGS) in Greater Cambridge

Period	Total Area of LGSs in South Cambridgeshire (hectares)	Total Area of LGSs in Cambridge (hectares)

Table 93 – Delivery of community and leisure facilities (Gross completed floorspace in square metres) in Cambridge

Source: Research & Monitoring - Cambridgeshire County Council

Notes:

Definitions from [The Planning Portal](#)

\*D1 uses (Non-residential institutions) include clinics, health centres, crèches, day nurseries, day centres, schools, art galleries (other than for sale or hire), museums, libraries, halls, places of worship, church halls, law court. Non-residential education and training centres.

\*D2 uses (Assembly and leisure) include cinemas, music and concert halls, bingo and dance halls (but not night clubs), swimming baths, skating rinks, gymnasiums or area for indoor or outdoor sports and recreations (except for motor sports, or where firearms are used).

Changes to the Use Classes Order came into effect on 1 September 2020. Class D has been revoked:

- D1 is split out and replaced by the new Classes E(e-f) and F1
- D2 is split out and replaced by the new Classes E(d) and F2(c-d) as well as several newly defined 'Sui Generis' uses.

To maintain a consistent dataset, permissions are recorded against both the former and new use classes and reported here using the former use classes.

## Open space in Cambridge City at May 2020

Area	Total Area (Hectares) *	Semi-Natural Woodland (Hectares)	Number of Play Areas
Clay Farm	10.37	3.54	2
Glebe Farm	2.61	0	4
Orchard Park	2.49	0	1
Trumpington Meadows	3.99	0	1
<b>All Areas Total</b>	<b>19.45</b>	<b>3.54</b>	<b>8</b>

Table 95 – Open Space in Cambridge City at May 2020

Source: Aerial photography

### Notes:

This information was collected using aerial photography alone and has not been subject to a site visit so may be revised in future. The data provided will be used to provide a baseline to compare against future years and we will work to improve the data available in future years.

\* New areas identified since Open Space and Recreation Strategy 2011. Some of these are existing sites that have not previously been assessed. Some of these are new sites that have been provided as part of new development. Areas include amenity areas either side of pathways.

Aerial Photography for Eddington is too limited to identify the majority of new areas therefore no summary is provided. Similarly, there are parts of Clay Farm and Trumpington Meadows that cannot be identified by the latest aerial photography.

DC5: Mill Road East	42%	57%	57%	54%	60%	63%	63%	61%	55%
DC6: Mill Road West	37%	49%	49%	54%	56%	54%	57%	53%	55%
DC7: Mitchams Corner	36%	48%	48%	49%	49%	45%	53%	47%	55%

Table 105 – percentage of units in A1 uses in District Centres in Cambridge

Source: Greater Cambridge Shared Planning team surveys and Cambridge Retail and Leisure Study Update (2013)

### Notes:

The Spring 2021 survey included a comparative analysis of the new Use Class Order that came into effect in 2020. The closest fit to A1 use is a combination of E (a) 'Display or retail sale of goods, other than hot food', and E (b) 'Sale of food and drink for consumption (mostly) on the premises'. For the benefit of continuity, this dataset will continue to monitor A1 uses.

## Design and Conservation data

### Number of Buildings of Local Interest (BLIs) in Cambridge

Period	Cambridge
2012	1,032
2013	1,032
2014	1,032
2015	1,043
2016	455
2017	452
2018	460
2019	467
2020	465
2021	465
2022	465
2023	465
2024	465

Table 106 – Number of Buildings of Local Interest (BLIs) in Cambridge  
Source: Conservation Team - Greater Cambridge Shared Planning Service

Note: in some cases a single entry is used to cover more than one building. The significant reduction in the number of BLIs between 2014/15 and 2015/16 was as a result of consolidating entries meaning that a single entry is sometimes used to cover more than one building.

## Number of listed buildings and number that are at risk in South Cambridgeshire

Period	Number of listed buildings	Number at risk	% of listed buildings at risk
2011	N/A	3	N/A

Source: Cambridgeshire County Council Traffic Monitoring Report 2023-2024

#### Notes:

This is a survey by Cambridgeshire County Council of all vehicles crossing the River Cam (all bridges into the city centre) in a 12-hour flow. The data presented is from the Spring 2023 traffic survey (the latest timepoint available).

The data was sourced from Cambridgeshire and Peterborough Insight interactive dashboard, that presents the data for the Annual Traffic Monitoring Report 2023. It is expected that the full Annual Traffic Monitoring 2023-2024 report will be published in Winter 2024.

## Traffic growth on Urban River Cam screenline

Vehicle Type	2017	2018	2019	2020	2021	2022	2023	Total Change 2017-2023
Motorcycle	100	148	192	114	262	256	336	236%
Bus	100	92	94	28	79	67	73	-27%
Car	100	96	96	30	77	85	82	-18%
Light Goods	100	97	89	47	100	96	88	-12%
HGV	100	70	110	39	78	72	62	-38%
<b>Total Motor Vehicles</b>	<b>100</b>	<b>96</b>	<b>97</b>	<b>33</b>	<b>82</b>	<b>88</b>	<b>85</b>	<b>-15%</b>
Pedal Cycles	100	97	113	26	68	85	90	-10%

Table 110 – Traffic growth on urban River Cam screenline

Source: Cambridgeshire County Council Traffic Monitoring Report 2023

### Notes:

2017= 100. Traffic is monitored comprehensively in Cambridge by Cambridgeshire County Council along 2 screenlines. The Urban River screenline runs along the River Cam. Vehicles, pedestrians and cyclists crossing all bridges in the city centre are counted every spring.

E-Scooters have been included as a mode of transport since 2022 for this data set. Traffic Growth for this vehicle type therefore has a different base date (2022).

Change 2017-2023: This data indicates the trends in traffic growth on the urban River Cam Screenline between 2017-2023. The dataset covers the COVID-19 period which caused noticeable changes in the dataset between 2019-2021.

The data was sourced from Cambridgeshire and Peterborough Insight interactive dashboard, that presents the data for the Annual Traffic Monitoring Report 2023. It is expected that the full Annual Traffic Monitoring 2023-2024 report will be published in Winter 2024.

## Residents aged 16-64 in employment and working within 5km of home or at home (%), 2021

Area	Residents aged 16-64 in employment and working within 5km of home or at home (%)
Cambridge	79
South Cambridgeshire	56
Cambridgeshire	57

Table 111 – Residents aged 16-64 in employment and working within 5km of home or at home (%), 2021

## Vehicle flows across the South Cambridgeshire – Cambridge City boundary over 12-hour period

Vehicle Type	2023 12 Hr Flow	2023 Modal Split
Motorcycles	1,357	1%
Bus	1,433	1%
Car	156,190	78%
Light Goods	24,400	12%
HGV	4,257	2%
<b>Total Motor Vehicles</b>	<b>187,637</b>	<b>94%</b>
Pedal Cycles	9,455	5%
Pedestrians	3,184	2%
E-scooters	153	0 %
<b>Total Active Travel</b>	<b>12,792</b>	<b>7%</b>
<b>Total all Modes</b>	<b>200,429</b>	<b>101%</b>

Table 112 – Vehicle flows across the South Cambridgeshire – Cambridge City boundary over 12-hour period

Source: Cambridgeshire County Council Traffic Monitoring Report 2023

Notes:

Each of the modal figures as noted in the table were rounded to the nearest whole figure. This has resulted in the modal splits totalling 101%.

For E-scooters the modal split was 0.07% to two decimal places. However, as data has been rounded to the nearest whole figure it was subsequently 0%.

The data was sourced from Cambridgeshire and Peterborough Insight interactive dashboard, that presents the data for the Annual Traffic Monitoring Report 2023. It is expected that the full Annual Traffic Monitoring 2023-2024 report will be published in Winter 2024.

## Traffic growth on the Cambridge Radial Cordon

Vehicle Type	2017	2018	2019	2020	2021	2023	Change 2017-2023

Table 113 – Traffic growth on the Cambridge Radial Cordon

Source: Cambridgeshire County Council Traffic Monitoring Report 2023

Notes:

2017= index 100. Traffic is monitored comprehensively in Cambridge by Cambridgeshire County Council along 2 screenlines. The Cambridge Radial Cordon monitors vehicles, pedestrians and cyclists on every entry and exit route to Cambridge. Seven sites are also monitored to count cyclists and pedestrians on paths between the radial routes This is counted in the autumn.

E-Scooters have been included as a mode of transport for this data set since 2021. Traffic Growth for this vehicle type therefore has a different base date (2021)

The data was sourced from Cambridgeshire and Peterborough Insight interactive dashboard, that presents the data for the Annual Traffic Monitoring Report 2023. It is expected that the full Annual Traffic Monitoring 2023-2024 report will be published in Winter 2024.

<b>All Years Total</b>	<b>104</b>	<b>864</b>	<b>2,103</b>	<b>3071</b>

Table 115a – People killed or seriously injured in road traffic accidents, South Cambridgeshire

Source: Cambridgeshire Constabulary & Cambridgeshire County Council.

Notes:

Due to the nature of road traffic collision data, this information is subject to change.

Inclusion criteria: Collision must have been reported to the police within 30 days of taking place. Collision must include at least one injured party (i.e. excludes 'damage only' collisions). Collision must have taken place on the public highway. Collision must have involved at least one vehicle (e.g. bicycle, car, HGV, van, etc).

\*The data set for the 2024 period only covers from January to June 2024 and is therefore not directly comparable with previous years. This last 6 months data has been included as it includes the last three months of the monitoring period for the 2023-2024 AMR.

## Recorded Crimes per 1,000 people

Period	South Cambridgeshire	Cambridge City	Cambridgeshire
2011	30.9	90.4	53.2
2012	31.0	92.4	51.7
2013	30.1	82.4	46.4
2014	31.5	88.5	48.7
2015	31.4	88.5	49.3
2016	36.5	96.0	54.1
2017	48.2	116.7	66.7
2018	45.1	112.9	63.7
2019	46.8	122.8	67.6
2020	44.0	103.6	63.4
2021	43.4	101.3	63.5
2022	49.2	113.2	69.4
2023	48.9	122.5	70.8

Table 118 – Recorded crimes per 1000 people

Source: data.police.uk via [Cambridgeshire Insight](#)

Note: data displayed as a rolling average so each year is average of monthly data from January to December.

## Percentage of residents with a long-term limiting illness

Area	2021	2021 (Age standardised proportions)
South Cambridgeshire	14.7%	14.8%
Cambridge	14.7%	16.7%
Cambridgeshire	16.2%	16.4%
England	17.3%	17.7%

Table 119 – Percentage of residents classified as disabled under the Equality Act with day to day activities limited either a little or a lot

Source: Census of Population 2021

Note: The age standardisation methodology allows more meaningful comparisons between areas with different age profiles. For example, applying the age standardisation methodology to Cambridge increases the percentage of residents with a long-term limiting illness because it has a relatively young population.

## English Indices of Deprivation

### South Cambridgeshire

Measure	2019 Rank
Index of Multiple Deprivation	300
Deprivation Domains:	-
Income	302
Employment	304
Education, Skills & Training	307
Health & Disability	304
Crime	248
Living Environment	258
Barriers to Housing and Services	98
Supplementary Indices:	-
Income deprivation among children	293
Income deprivation among older people	301

Table 120 – Indices of deprivation – South Cambridgeshire

Source: English Indices of Deprivation from the Ministry of Housing, Communities & Local Government (MHCLG)

Note: A rank of 1 signifies the most deprived Local Authority and a rank of 317 signifies the least deprived Local Authority on each measure. More details on the English Indices of Deprivation 2019 including the different domains and measures are published on the [government website](#).

## Key Stage 4 attainment results

### 2023-24 data

This publication has been delayed due to quality issues in data submitted by an awarding organisation which were identified in the “Check Your Performance Measures Data” exercise. A new publication date will be announced as soon as possible in line with the requirements of the Code of Practice for Statistics. These statistics will be released between November and December 2024.

### Caveats for 2022-23 data

All data released as part of the DfE's KS4 Performance 2022 Publication is publicly available for all on the DfE website:

[Key stage 4 performance, Academic year 2022/23](#)

This release includes all characteristics and geographical breakdowns that are usually published in February's 'revised' release.

Data for South Cambridgeshire is based on the School District identified in the Get Information about Schools date available at:

[Get Information about Schools](#)

### Year on Year Comparisons

In 2022/23 there was a return to pre-pandemic standards for GCSEs, AS and A levels, with protection built into the grading process to recognise the disruption that students have faced. In 2021/22 outcomes broadly reflected a mid-point between 2018/19 and 2020/21 and the DfE state that it is expected that performance in 2022/23 will generally be lower than in 2021/22.

**For this reason, the DfE advises that users need to exercise extreme caution when considering comparisons over time, as they may not reflect changes in pupil performance alone.**

In the DfE's 2022/23 release, comparisons are made with 2021/22 and 2018/19, though they identify the more meaningful comparison is with 2018/19 as this was the last year that summer exams were taken before the pandemic.

Further details can be found in the full DfE publication.

The new 9 to 1 grading systems (rather than A\*-G), although introduced for some GCSE subjects in 2015, was not applied to all GCSE subjects until 2020. Year on year comparisons will be limited until these qualifications are consistently included from 2020 onwards.

Due to the impact of Covid-19, in 2019/20 pupils were awarded either a centre assessment grade (known as CAGs, based on what the school or college believed the pupil would most likely have achieved had exams gone ahead) or their calculated grade using a model developed by Ofqual - whichever was the higher of the two.

Due to the impact of Covid-19, in 2020/21 pupils were only assessed on the content they had been taught for each course. Schools were given flexibility to decide how to assess their pupils' performance, for example, through mock exams, class tests, and non-exam assessment already completed. GCSE grades were then determined by teachers based on the range of evidence available and they are referred to as teacher-assessed grades, or TAGs.

Due to the impact of Covid-19, the 2021/22 academic year saw the return of the summer exam series, though adaptations were made to the exams (including advance information) and the approach to grading for 2022 exams broadly reflected a midpoint between results in 2019 and 2021. More information about these changes can be seen in the Guide to GCSE results for England, summer 2022.

The changes seen in the headline attainment statistics likely reflect the changes in approach to grading in different years and resulting methodology changes for calculating the measures rather than demonstrating changes in standards.

[Guide to GCSE results for England, summer 2022](#)

**Data Not Available (n/a)**

Progress 8 Data - this was not published in 2020 and 2021 because of the cancellation of GCSE exams (due to COVID-19). Calculating Progress 8 has an element of modelling (estimating the average Attainment 8 score for pupils with similar prior attainment) and with the lack of exam data, the Progress 8 measure is not meaningful as a measure of progress for these years.

Ebacc Average Points Score - this was not introduced in performance tables until the 2017/18 academic year so is not available for previous academic years.

**[For further information, please click here to see the DfE's full publication, including a methodology paper.](#)**
