

PLANNING COMMITTEE MEETING – 4 March 2026

Amendment/De-brief Sheet

Circulation:	First	Item:	5
Reference Number:	25/04801/FUL		
Address:	Cambridge Rugby Union Club Grantchester Road Newnham Cambridge Cambridgeshire CB3 9ED		
Determination Date:	6 th March 2026		
To Note:	N/A		
Amendments to Text:	<u>Amendment to Report:</u> <i>Paragraph 17.8(Amendments to text to reflect condition changes):</i> The site benefits from previous permissions where flood lighting has been permitted to serve the existing rugby use one site (19/0669/FUL). Due to the separation distance between the proposed flood lights and the residential dwellings, officers do not consider the flood lights will adversely impact residential amenity nor will the increase of use be determinantal to the openness of the Green Belt as the proposal is not considered to be inappropriate development within the Green Belt and therefore by definition cannot be considered harmful.. However, due to limited information being submitted in terms of bats, officers have liaised with ecology officers who have agreed to an expanded lighting condition to ensure surrounding ecology is not impacted on. <i>Paragraph 17.9 - Deleted</i> <u>Conditions:</u> Condition 9 has been expanded on, consequently condition 10 has been removed. <i>Amendment to condition 9 (removal of condition 10):</i>		

	Prior to the installation of any artificial lighting in any phase, an ecologically sensitive artificial lighting scheme for that phase shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall include details of the baseline condition of lighting, any existing and proposed internal and external artificial lighting of the site in that phase and an artificial lighting impact assessment with predicted lighting levels. The scheme shall: a) include details (including luminaires, fittings and any shrouds) of any artificial lighting on the site and an artificial lighting impact assessment with predicted lighting levels at the site boundaries; b) unless otherwise agreed, not exceed 0.4 lux level (against an agreed baseline) on the vertical plane at agreed locations; c) detail all building design measures to minimise light spillage; d) set out a monitoring and reporting regime for the lighting scheme. e) Set out times of use, specifically daily hours and times of year. Floodlights are not permitted to be on when the padel courts are not in use. The approved lighting scheme shall be fully installed, maintained and operated in accordance with the approved details. The scheme shall be retained as such thereafter. <u>Informatives:</u> <i>Addition of informative 5:</i> The applicant is recommended to consult the Bats and Artificial Lighting at night (2023) guidance when producing information to address condition 9.
